# YoungStar Evaluation Criteria

## School-Age Care Programs<sup>1</sup>

This document outlines the items that will be evaluated for YoungStar and can be used by school-age staff to prepare for a YoungStar rating. More in-depth information can be found in the YoungStar Frequently Asked Questions document, available here: <http://dcf.wisconsin.gov/youngstar/provider-faqs.htm> and the YoungStar Policy Guide, available here: <http://dcf.wisconsin.gov/youngstar/policy.htm>

The categories that will be evaluated are listed below.

- A. Education and Training of Lead Group Leaders and Site Supervisor/Coordinator/Administrator/Director
- B. Learning Environment and Curriculum
- C. Business and Professional Practices
- D. Health and Well-being

When a program has more than one staff listed in their Program Profile for a group, the training (but not the education) of either staff will be counted when awarding YoungStar points for the following indicators: School Age Curricular Framework/Wisconsin Model Early Learning Standards Training (B.2.1), Social Emotional/WI Pyramid Model/Inclusion Training/Guiding Children's Behaviors in School Age Programs (D.1.3), and Strengthening Families/Darkness to Light Training (D.1.4).

To be qualified to be listed in the Program Profile, the staff needs to be in the assigned group for at least 50% of the time that the grouping is open (up to 40 hours per week). The staff could be listed as any of the following in the Program Profile: Group Leader, Assistant Teacher or Assistant School-Age Teacher. The educational level of these staff that are listed as something other than the Lead Group Leader will not be counted for component A of YoungStar points. The method of awarding points for the education of the Lead Group Leaders will remain the same.

For example, if the Other Group Leader in a group has taken the School Age Curricular Framework (SACF) but the Lead Group Leader has not, the program would be given credit for that group having met the requirement for SACF training.

The Site Supervisor/Coordinator/Administrator/Director and Lead Group Leader education and training qualifications will be verified by The Registry using the criteria listed in this document. **The Consultant/Rater is responsible for verifying that the individuals identified as the Director, Site Supervisor, Lead Group Leader and/or Group Leader on The Registry Program Profile are accurate prior to activating any rating (see Appendix D).**

Each Quality Indicator will be listed by name and the number of points available for that indicator (as circled in yellow in the example below). For some Quality Indicators, the number of points available may vary with increased points based upon the depth of implementation. An explanation of the Quality Indicator will be given and the points that are required for each star level will be separated from those that are optional. After each Quality Indicator, there is a box (in the green square in the example below) with an area for checking if the Indicator was met or not, an area for the corresponding points and an area for comments.

This quality rating and improvement system is informed by the following nationally-recognized tools:

- School-Age Care Environment Rating Scale - Updated (SACERS - U)<sup>2</sup>
- Program Administration Scale (PAS)<sup>3</sup>

**NOTE: The PAS tool is listed merely as a reference and a tool for staff to use when determining if a program meets an indicator or not. Programs WILL NOT be scored on the PAS tool directly.**

### Children in Regular Attendance

Some quality indicators may have exceptions for children who are not in regular attendance. In most cases, the quality indicators apply to the entire program. If the quality indicator has an exception for children who are not in regular attendance, this will be clearly stated.

- If the program is open **40 hours per week or fewer**, to be in “regular attendance” means that the child attends the program 50% or more of the hours the program is open for that age group of child. For example, if a program is open 25 hours per week, a child in regular attendance would attend 12.5 hours or more per week.
- If the program is open **more than 40 hours per week**, to be “in regular attendance” means a child attends 20 hours per week or more of the hours the program is open for that age group of child. For example, if the program were open for 45 hours per week, the child in regular attendance definition would be 20 hours or more per week.

### Full-time vs. Part-time

YoungStar recognizes that some school-age care programs have different operating schedules based on the time of year. For all of the measures within this document, the quantities shall be pro-rated based upon the average number of hours per day or per week a program is open using a definition of full-time as an 8 hour day and a 40 hour week. For example, if a quality indicator asks a program to provide 60 minutes of physical activity per day, the part-time program operating 4 hours per day would be asked to provide 30 minutes of physical activity. If the operating hours vary during the week, a Consultant/Rater will use the average number of hours per day to award points for items like this.

For the purposes of YoungStar, the definition of a full-time employee is a Lead Group Leader or Site Supervisor who works an average of 40 hours per week for 6 months of the year or more. So, if the program is open for 3

months (one-fourth) of the year and the program wants to earn credit for the Quality Indicator C.4.3 which requires 18 paid days off per year for full-time staff, the program would have to demonstrate that they give full-time staff 4.5 days off per year.

### Staffing of School-Age Child Care Programs:

A person can only be associated in The Registry's Program Profile with one program at a time. This means a person who has responsibilities for more than one program must choose one Program Profile with which to be affiliated. Every grouping that is open at least 25% of the time that the program accepts children (up to 40 hours) must be listed on the Program Profile. For example, if the program is open 40 hours or more per week, any classroom that is open 10 hours per week would need to be on the Program Profile. A classroom/group must be in a Program Profile to be eligible for a Formal Rating.

- For YoungStar,<sup>4</sup> the maximum ratios of staff to children and the size of a “group” will be based upon licensing rules governing these areas. See Appendix C for this information.
- In this document, Site Supervisor/Coordinator/Director/Administrator has been shortened to “Site Supervisor” in some instances. If the word “Site Supervisor” is written, it refers to the person serving in any of the Site Supervisor/Coordinator/Director/Administrator positions.
- For YoungStar, the person who is designated as the Site Supervisor shall be on-site monthly for at least 25% of the total number of hours they work per week (up to 40 hours) for the program and shall have the following responsibilities:
  - Supervision of the planning and implementation of the programming for children
  - Supervision of the staff at the site
  - Staff meetings and orientation
  - Continuing education for the staff

For example: If the program is open 40 hours or more per week, the Site Supervisor would need to be on-site for at least 25% of the time, at least 10 hours per week, for the purpose of carrying out Site Supervisor responsibilities in a single full-day location. If the program is open for less than 30 hours per week, the Site Supervisor would need to be on-site for 25% of the time.

- The person serving as the Site Supervisor may step in to help out with Lead Group Leader responsibilities if a staff member is ill, during staff break/meal times, when special programming or activities require more adults to be in the room or for emergencies.
- The person serving as the Lead Group Leader will be designated as follows:
  - The person who is teaching for the greatest number of hours **between the hours of 6 AM and 6 PM** in a given classroom should be listed as the Lead Teacher or Lead Group Leader on the Registry Program Profile. For example, if the program is open 7 AM to 6 PM and Barbie works 25 hours per week and Ken works 35 hours per week in a given classroom/group, Ken should be listed as the Lead Teacher or Lead Group Leader for the classroom.
  - If two or more people work an equal number of hours between the hours of 6 AM and 6 PM, either person can be listed as the Lead Teacher or Lead Group Leader on the Registry Program Profile. For example, if Jenny and Kate both work 8 hours per day in the program (from 7 AM to 3 PM), either could be listed as the Lead Teacher or Lead Group Leader in the Program Profile for that classroom.
  - To calculate the number of hours a staff person works, only hours between 6 AM and 6 PM will count. For example, a program is open 24 hours per day. In the Bumblebee classroom, Callie works from 7 AM to 3 PM and Sarah works from 3 PM to 11 PM. Callie has to be listed as the Lead Teacher or Lead Group Leader in the Program Profile because even though both she and Sarah

<sup>4</sup> Licensing requirements regarding the role of the Director are different from YoungStar and can be found here: <http://dcf.wisconsin.gov/childcare/licensed/Rules.HTM>. Licensing is meant to be a base level for health and safety and YoungStar is meant to be a step higher toward quality. So, while a program may be following licensing requirements for the role of a Director, the requirements outlined in this document will be used for YoungStar.

work 8 hours per day, only 3 of Sarah's hours are before 6 PM. Therefore, Callie has more hours between 6 AM and 6 PM.

### Verification of Staffing

Before approving a rating, the Consultant/Rater will visit each classroom or group at least once and must see the person who is listed as the Lead Teacher or Lead Group Leader in the Program Profile teaching in that classroom or group. If a Consultant/Rater does not see each Lead Teacher/Lead Group Leader in the classroom/group in which they are listed in the Registry Program Profile, a Technical Rating will not be completed and the program will be ineligible for a Formal Rating until the information can be verified. Further proof may be required in the form of time sheets or pay stubs. (Maintaining Your Registry Profile Policy, Updated 1/1/2016.)

### Variations—The following variations to rule C will be allowed<sup>5</sup>

- **Centralized administration (for programs with multiple sites):** if the program is administrated outside the site, the program may ask for a variation from the typical YoungStar staffing requirements. Responsibilities 1 and 2 (listed under Staffing of School Age Child Care Programs) must be performed by a person who is on-site at the site for at least 25% of the total number of hours they work for the program. Responsibilities 3 and 4 may be performed by a person or persons who are located off-site.

In these cases, the program has two options:

- Option 1: List a person from the administrative office who is responsible for 3 and/or 4 as the Site Supervisor.
  - Option 2: List the person who is on-site performing responsibilities 1 and 2 as the Site Supervisor. **If the program wants to choose this option and the person listed as the Site Supervisor is also a Group Leader, the rules for Dual-Role (below) must be followed.**
- **Dual-role:** school-age sites licensed for 50 or fewer children may, in the following limited circumstances, have a Site Supervisor who also is listed as a Lead Group Leader in the Program Profile:
    - To be eligible to earn 3 Stars: The person in the dual-role has 25% of the time the program is open<sup>6</sup> (up to 40 hours) devoted to the responsibilities of the Site Supervisor **AND** child to staff ratios must follow licensing requirements for licensed group centers. The dual-role Site Supervisor must also meet the educational qualifications for a 3 Star rating. For example, if the program is open 40 hours per week, the person in the dual-role would have to be in the Site Supervisor role for 10 hours per week and be at a Registry Level 10 or the equivalent as verified through The Registry Program Profile
    - To be eligible to earn 4 Stars: The person in the dual-role has 37.5% of the time the program is open (up to 40 hours) devoted to the responsibilities of the Site Supervisor **AND** child to staff ratios must follow licensing requirements for licensed group centers. The dual-role Site Supervisor must also meet the educational qualifications for a 4 Star rating. For example, if the program is open 40 hours per week, the person in the dual-role would have to be in the Site Supervisor role for 15 hours per week and be at a Registry Level 12 or the equivalent as verified through The Registry Program Profile.
    - To be eligible to earn 5 Stars: A full-time dedicated Site Supervisor must be in place, who meets the educational qualifications for a 5 Star rating.

### Verification of the variations to Rule C

<sup>5</sup> In either of these cases, the following rule still applies: A person can only be associated in The Registry's organizational profile with one program at a time. This means a person who has responsibilities for more than one program must choose one Program Profile with which to be affiliated.

<sup>6</sup> "The time the program is open" means the number of hours the program accepts children for care. If a program had additional hours where staff are present but no children are in care, these hours do not count toward the time the program is open.

To verify this indicator, the program may be asked to provide schedules, pay stubs, timesheets, job descriptions, employee handbooks and/or employment policy and procedure documentation. **NOTE: If a site is not licensed or certified, the TC will look at the enrollment of the program instead of the licensed capacity.**

DRAFT

## **A. Education and Training of Lead Group Leaders and Site Supervisor/Coordinator/Administrator/Director**

In the following charts, the points are not cumulative. The program will receive credit for the highest education level attained in each chart. If an individual's Registry Level falls in between two point levels, the program will be awarded the points for the lower of the two levels. For example, if a Site Supervisor is at Registry Level 11 but does not have the 6 credits in supervision/ personnel management and financial management, (s)he would receive 3 points because her Registry Level is higher than the requirement at the 3 point level but did not meet the requirement at the 4 point level.

To earn points in the education section of YoungStar, programs must complete a Registry Program Profile (also known as an Organizational Profile) at [www.the-registry.org](http://www.the-registry.org). The information in the Program Profile is automatically transferred to YoungStar each night and programs are rated based upon this information weekly. **If a change is made in a Program Profile, this may affect the program's star rating and point's calculation.** Please see Appendix D for information about maintaining your Registry Program Profile.

The information below does not reflect requirements for licensing. The individual serving in a position must minimally meet licensing requirements for that position. For example, a person with an unrelated Master's degree such as political science would have a high registry level but they may not be qualified to teach in a classroom because they have not met the minimum requirements for licensing. So, that individual cannot be listed in the Program Profile and earn points for the program.

Any time a "Related Associate's Degree" is referenced in this document, 60 credits beyond high school with at least 30 of those credits related to early childhood or school-age care and education would be accepted as equivalent to the Related Associate's Degree for YoungStar point purposes. There are over 5,000 course titles that will be accepted for the credits in supervision/personnel management. Individuals should check with The Registry if they have a question about a particular course being accepted in these categories.

## QUALITY INDICATOR

### A.2 Site Supervisor Qualifications

#### Role of the Site Supervisor

**For 3 and 4 star programs ONLY**

YoungStar Consultants/Raters will confirm that programs who utilize a dual-role Site Supervisor or centralized administration are meeting the requirements of this exception through any of the following means: the program's budget, job descriptions, timesheets, pay stubs or schedule. The dual-role Site Supervisor must also meet the educational qualifications for a 3 or 4 Star rating to receive those respective ratings.

**Programs that do not have a Site Supervisor serving in a dual-role should disregard this indicator. Programs with a dual-role director cannot earn 5 Star ratings. Programs licensed for more than 50 children (or that are license-exempt and have more than 50 children enrolled) cannot have a Site Supervisor listed as both the Site Supervisor and a Lead Group Leader in the Program Profile.**

#### A.2 Role of the Site Supervisor

Program has a:

- ☐ Site Supervisor is full-time.
- ☐ Dual-Role Site Supervisor
- ☐ Centralized Administrative Structure

#### Dual-Role

☐ **To earn 3 Stars:** The person in the dual-role has 25% of the time the program is open<sup>8</sup> devoted to the responsibilities of the Site Supervisor **AND** child to staff ratios must follow licensing requirements for licensed group centers. The dual-role Site Supervisor must also meet the educational qualifications for a 3 Star rating.

☐ **To earn 4 Stars:** The person in the dual-role has 37.5% of the time the program is open devoted to the responsibilities of the Site Supervisor **AND** child to staff ratios must follow licensing requirements for licensed group centers. The dual-role Site Supervisor must also meet the educational qualifications for a 4 Star rating.

How was the dual-role status verified?

- ☐ Budget   ☐ Job description   ☐ Timesheet/schedule   ☐ Pay stubs

Notes on verification of dual-role:

---

---

#### Centralized Administration

Responsibilities 1 and 2 (listed below) must be performed by a person who is on-site at the center/site for at least 25% of their working hours. Responsibilities 3 and 4 may be performed by a person or persons who are located off-site.

#### Responsibilities

1. Supervision of the planning and implementation of the programming for children
2. Supervision of the staff at the program
3. Staff meetings and orientation
4. Continuing education for the staff

In these cases, the program has two options:

- ☐ **Option 1:** List a person from the administrative office who is responsible for 3 and/or 4 as the Site Supervisor.
- ☐ **Option 2:** List the person who is on-site performing responsibilities 1 and 2 (listed above) as the Site Supervisor. **If the program wants to choose this option and the person listed as the Site Supervisor is**

<sup>8</sup> "The time the program is open" means the number of hours the program accepts children for care. If a program had additional hours where staff are present but no children are in care, these hours do not count toward the time the program is open.

**also a Lead Group Leader, the rules for Dual-Role must be followed.**

**With either option, the program must demonstrate sufficient staffing to cover all of the following:**

Who supervises the planning and implementation of the programming for children?

Verified through any of the following:

☐ Budget ☐ Job description ☐ Timesheet/schedule ☐ Pay stubs

Notes:

Who supervises the staff at the program?

Verified through any of the following:

☐ Budget ☐ Job description ☐ Timesheet/schedule ☐ Pay stubs

Notes:

Who conducts staff meetings and orientation?

Verified through any of the following:

☐ Budget ☐ Job description ☐ Timesheet/schedule ☐ Pay stubs

Notes:

Who is responsible for continuing education of the staff at the program?

Verified through any of the following:

☐ Budget ☐ Job description ☐ Timesheet/schedule ☐ Pay stubs

### Learning Environment and Curriculum: **REQUIRED** Points

#### QUALITY INDICATOR

##### B.1.1 Self-Assessment

##### **POINTS AVAILABLE: 1**

##### **B.1.1 Self-Assessment**

**REQUIRED for 3, 4, and 5 Stars**

##### **For 1 point**

Documented annual use of a self-assessment process for quality improvement using Environment Rating Scales, accreditation self-study, or other approved methods. This self-assessment should be used to inform a written improvement plan. The program must identify what quality improvement assessment tool(s) has/have been used, including date(s) the assessment process was completed, and who completed the assessment process **within the last 12 months**. The program cannot use the YoungStar Evaluation Criteria or the rating results from the previous year as their self-assessment.

- YMCA School-Age Care Program Guidelines (available for YMCAs only)
- [Youth Program Quality Assessment \(YPQA\) – Youth Program Quality Assessment](#)

#### **VERIFICATION**

The Consultant/Rater will verify that a self-assessment has been completed **within the past 12 months** and document what self-assessment tool has been used and the date the self-assessment was completed.

The self-assessment should be reviewed and contributed to by at least 75% of Lead Group Leaders and the Site Supervisor. This can be demonstrated through a coversheet, signed by the Site Supervisor and 75% of Lead Group Leaders saying they had a chance to review and contribute to the document.

##### **B.1.2 Quality Improvement Plan**

##### **For 1 point**

Quality Improvement Plan (QIP) is developed based upon a self-assessment, using the quality improvement self-assessment process described in B.1.1. The QIP must be completed in each rating year. The program cannot use the YoungStar Evaluation Criteria or the rating results from the **previous rating year** as their self-assessment, but the program can use the results to inform the QIP.

Identify the following within the QIP:

- Who completed the QIP and what were the findings?
- What goals have been identified for quality improvement?
- What steps will be taken to meet those identified goals, including what timeline is necessary to complete the action plan identified?

#### **VERIFICATION**

The Consultant/Rater is responsible for the verification of a complete QIP that is based upon a self-assessment process. The QIP must be completed in each rating year.

### **B.1.3 Developmentally Appropriate Practices**

#### **For 1 point**

Developmentally appropriate practice requires group leaders to meet children where they are and help them to reach goals that are both challenging and achievable. Classroom decisions are made with these desired outcomes in mind. To make sound decisions reflective of developmentally appropriate practice, the following key concepts need to be understood:

- Knowledge must inform decision making
- Goals must be challenging and achievable
- Teaching must be intentional to be effective.<sup>9</sup>

Developmentally appropriate practice requires both meeting children where they are and enabling them to reach goals that are both challenging and achievable.

The following key elements are needed to award a point for developmentally appropriate practices.

1. **A written program philosophy includes a statement regarding how the program believes children learn AND how group leaders teach, reflecting developmentally appropriate practice. The program philosophy is available to families and staff in the parent handbook AND employee handbook.**
2. **Staff provides care that is engaging, comforting, culturally sensitive and compassionate.** All interactions by Group Leaders must be positive or neutral at best. Group Leaders use language that the children understand and help children communicate appropriately. Group Leaders foster relationship building between, group leaders and children, and peer to peer. At least three of the following are evident through observation.
  - The Group Leader and children appear to enjoy being with each other and demonstrate respect for each other.
  - The Group Leader is usually in close physical proximity with the children and joins in the children's experiences and activities.
  - Group Leader provides opportunities for peer interactions as children are able to participate in experiences and activities together.
  - The Group Leader provides verbal support in the language/manner that the children understand.
  - The Group Leader is observed having turn-taking conversations with most children and asking follow-up questions in a neutral or pleasant tone of voice.
3. **Exploration and play for children is supported by the environment.**  
Group Leaders can best guide learning by providing learning opportunities in natural and authentic contexts. Children are provided with opportunities to explore and apply new skills through a balance of

<sup>9</sup> Developmentally Appropriate Practice in Early Childhood Programs Serving Children from Birth through Age 8. National Association for the Education of Young Children. Third Edition. Washington, D.C.

child-initiated and staff-initiated activities. Children are offered different types of play and learning experiences to choose from, during which time positive interactions amongst peers and staff are occurring. Children gain the most benefit for playful learning experiences and materials when positive relationships are at the foundation of teaching.

A minimum of five learning experiences/learning areas related to each of the five SACF content areas/WMEELS domains must be available to children. To effectively meet the needs of ALL children, staff must provide materials and/or experiences with differing levels of difficulty and/or that address different learning styles to demonstrate how they have adjusted learning activities to challenge each child appropriately. Materials must be considered easily accessible for independent use by the children. Staff must provide at least two examples for at least two SACF/WMEELS domains. This will be verified by lesson plan and observation.

More information about SACF can be found at:

[https://dcf.wisconsin.gov/youngstar/pdf/schoolage\\_curricular\\_framework.pdf](https://dcf.wisconsin.gov/youngstar/pdf/schoolage_curricular_framework.pdf).

More information about WMEELS can be found at the Wisconsin Early Childhood Collaborating Partners website: <http://www.collaboratingpartners.com/wmels-about.php>.

#### **4. Children have routines and consistent schedules.**

Group Leaders adapt schedules and experiences to meet individual children's needs within the group setting. Group Leaders facilitate flexible and smooth transition times to effectively meet children's needs.

Predictable sequences to the day and routines provide a sense of security for children and staff. A minimum of 50 consecutive minutes of uninterrupted indoor free choice daily must be scheduled to allow for in-depth investigation of the environment and materials. There will be no pro-rata given based on time program is open. This will be verified by observation, lesson plan/schedule. This will apply to programs differently as follows:

- If the program is open for more than 4 hours per day for that age group of children served, fifty consecutive minutes is required. The 50 minutes cannot be during the first or last two hours of operation of the program for programs open more than 8 hours.
- If the program is open for less than 4 hours per day for that age group of children served, a minimum of 30 consecutive minutes of uninterrupted indoor free choice is required.
- If the program has a split schedule then the 50 consecutive minutes can be split. For example: a program has 2 hours of activities in the morning before school and 3 hours of activities in the afternoon. The program can split the 50 minutes by having 25 in the morning and 25 in the afternoon. However, the minutes must be consecutive and uninterrupted.

#### **5. Reciprocal relationships exist between program and families.**

Programs must make an effort to get to know the children's families and learn about the values, expectations, and factors that shape their lives at home and in their communities. A program must use a parent completed child intake form upon enrollment and annually thereafter. The form must include questions related to a child's background and/or culture. This information must be placed in the child's portfolio (if the program does portfolios) or cataloged in a three-ring binder or some other system folder which can be reviewed. The forms must be in the classroom. The background information helps the program provide meaningful, relevant and respectful learning experiences for each child and family. Program must demonstrate connection between the information received on a parent completed child intake form with the learning experiences provided for the child which will be verified through an interview conducted with the Group Leader. The child intake form must be verified for 25% of the children in regular attendance from the following groups: 4 year olds (if enrolled), and 5 years and older.

## VERIFICATION

To earn the point for this indicator, all groups must follow the indicators outlined above but to use verification time wisely, a Consultant/Rater should verify this practice in **one third of the groups (up to three groups)**. If there are fewer groups, Consultant/Rater should verify all groups. Consultant/Rater must verify developmentally appropriate practices through observation, lesson plans/schedule and interview.

50% of **groups** have one staff person assigned to the room in the Program Profile who has completed the full SACF training **(15 hours)** or training in WMELS **(15 - 18 hours)**. Staff have the option of completing either training if only school-age children are enrolled. **See note on page 3 scoring related to training.**

**NOTE:** Verification will be completed through automated linkage with The Registry to confirm group staff have completed either the full SACF **15 hour** training delivered by an approved SACF trainer, the WMELS credit-based training or the WMELS **15-18 hour training** (delivered by an approved WMELS trainer). The intent of this indicator is that the group staff is trained in the tool that matches the age group(s) served (at least one of the children in care should match the age group of the tool in which the classroom staff is trained). However, The Registry will give the program credit for this indicator if one group staff member has taken either training.

### **B.2.2 Programming aligned with School-Age Curricular Framework** **For 1 point**

The program uses a curriculum aligned with the School-Age Curricular Framework (SACF). This means the School-Age Curricular Framework is implemented in all groups.

#### **School-Age Curricular Framework**

**The SACF is NOT a curriculum or an assessment tool, but a framework that guides what staff teach and how staff teach.** A school-age curricular framework is child/youth-centered; developed to meet the unique needs of all children and youth; and requires staff to be intentional about planning experiences to enhance learning and development. Curricular framework planning is informed by ongoing, appropriate assessment. Programs use a variety of authentic assessment strategies and tools to gauge the effectiveness of curriculum activities in meeting objectives for children/youth. Resource materials are available which contain ideas for school-age program activities.

School-age programming should show evidence of the following:

- Matching up programming/activities with children's general needs in development, scope and sequence, and interests: All children and youth should have the opportunity to participate in high quality afterschool programs designed to meet their developmental needs. Those needs include but are not limited to:
  - physical and emotional safety,
  - positive relationships with peers and caring adults,
  - a sense of community and belonging,
  - an environment that recognizes and develops their talents,
  - play experiences
  - opportunities for engaged learning, mastery, leadership and service, and
  - a sense of the future.

Afterschool programs can address these needs and also take into account the changing developmental needs of children and youth. Activities should reflect developmental sequence (from simple to difficult/least mature to more mature skills) that are useful and that provide enough items for children to learn as the children's

developmental needs change. Scope and sequence refers to the learner goals and the order children generally achieve them.

- How children will benefit from the program activity;
- Appropriateness of activities based on the developmental needs of children, the cultural needs of the children, and inclusion practices for children;
- Equipment, supplies and set up needed for the program activity;
- Time needed to experience program activity; and
- Supervision needed to support program activity.

Programs that have school-age children must demonstrate how their programming or curriculum aligns with the School-Age Curricular Framework's nine content areas:

1. Language, Literacy, and Numeracy
2. Arts and Culture
3. Global Learning
4. Health and Well-being
5. Media and Technology
6. Science, Technology, Engineering, and Math Education
7. Social Emotional Development/Character Education
8. Environmental Learning
9. Service Learning.

This must be demonstrated through the following **four** things:

- Lesson plans reflect the School-Age Curricular Framework nine content areas with goals for learning or enrichment written on lesson plans.
- Interest areas reflect the School-Age Curricular Framework nine content areas.
- Enrichment experiences are linked to the goals/learning objectives/outcomes for children and the program as a whole.
- In addition to curriculum alignment, SACF is also used to provide information to families and staff (if applicable). This can be demonstrated through documentation of **two or more** of the following:
  - Parent handbook
  - Center operational policies
  - Staff training materials
  - Documentation from family meetings
  - Orientation materials
  - Newsletter

**NOTE:** All Framework Content Areas do not have to be addressed **every day**. The program should make a decision about how many times per week a Framework Content Areas will be addressed. A program may include the guidelines in their parent handbook, center operational policies, or in staff training materials. Activities such as service learning may happen monthly or several times per year.

### **VERIFICATION**

Verification of programming alignment will be done by the Consultant/Rater. To use Consultant/Rater time wisely, verification of this indicator must be done in **one third of the groups (up to three groups)**. If there are three or fewer groups, Consultant/Rater should verify lesson plans for all age groups. The Consultant/Rater must review the **most recent consecutive four weeks'** lesson plans for this indicator.

To verify that curriculum is aligned with the School-Age Curricular Framework, consultant must see all of the following **four**:

- Lesson plans reflect the School-Age Curricular Framework nine content areas with goals/learning objectives or enrichment written on lesson plans.
- Interest areas reflect the School-Age Curricular Framework nine content areas.
- Enrichment experiences are linked to the goal/learning objectives/outcomes for children and the program as a whole.
- Program must also show how information about how the program implements SACF is communicated to families in **two or more** ways..

**If there are questions about program alignment with SACF, the Department will make a determination.**

## QUALITY INDICATORS

### B.3.1-4 Program-Wide Practices for Child Outcomes

#### **POINTS AVAILABLE: 4**

**NOTE:** Indicators B.3.1-4 deal with the process that group leaders use to plan for the learning of the children in their care. The indicators are interconnected and address different aspects of the teaching cycle that is used throughout the Wisconsin Model Early Learning Standards (WMELS) training or similar instructional processes. This is a process and it can take years to master. Developmentally Appropriate Practices (DAP) are the basis for this process and must be understood before taking on this task. DAP trainings are available throughout the state. A list of available trainings can be found at: <http://dcf.wisconsin.gov/youngstar/training.htm>

When thinking about indicators B.3.1-3, group leaders should be able to answer the following questions, which may be posed to them by Consultants/Raters verifying these points:

- Where and how do you document what you know about the children's development?
- How do you know if this is typical child development and meeting widely held expectations of the child's age?
- Do you use an assessment tool? Describe the training you received on any assessment tool you are using.
- How do you determine what developmental skills to teach next and/or which environmental changes are needed to support child learning? Give an example. How is this documented?
- Where do you keep individual child goals/learning objectives? (anecdotal records and assessment summary)
- How often are child goals/learning objectives reviewed and modified?
- How often are child goals/learning objectives used to plan activities or environment changes?
- What information do you use to plan activities and environment changes? Where do you document the learning activities, group leader strategies, and/or changes to environment that support individual child goals/learning objectives? Describe how this information is shared with all staff working with this group.
- When the child engages in an activity or environmental change planned for them, where or how is it documented?

For more information about the Teaching Cycle and child goals/learning objectives, please see Appendix E.

#### **B.3.1 Individual child portfolios**

##### **For 1 point**

The Teaching Cycle involves three processes: documentation linked to assessment, curriculum planning and implementation. For B.3.1 Individual Child Portfolios: documentation, by portfolio, is the record of the child's process of learning represented by artifacts or children's work or the data on which an evaluation of the child's

learning is based. Documentation should always be informing the authentic assessment process. Without documentation an assessment is not effective in telling staff and parents about the child's learning.

Portfolios show children's efforts, progress and achievements in an organized and structured way. The portfolios should be meaningful so that children are able to take an active role in evaluating their own work. By discussing portfolios together, staff and children are able to make instructional decisions that lead to new activities based on the child's progress and interests. Portfolios should be structured in a way that can clearly show children's progress on learning objectives, accomplishments and participation.

Portfolios are records of the child's process of learning and must document the following five practices (which will be verified by Consultant/Rater):

1. **What the child has learned and how the child has gone about learning:** This can be shown through the study of children's work and processes by which they learn and should include their drawings, constructions (for example: block buildings), conversation or presentations. They give evidence of what a child knows and can do. Children's work products can document individual as well as group experiences. The process used to create the product can also be observed and documented in an assessment tool or participation charts. The child will use various styles of learning - verbal/linguistic, bodily/kinesthetic, visual/spatial, interpersonal, and intrapersonal. Some suggestions for documenting these are provided below:
  - Look for responses from children. Clues to children's development and learning are received when we ask children questions, make requests, give directions, lead discussions, assign tasks, set up equipment in a particular way, provide particular materials, and conduct short conferences and interviews.
  - Note how children respond to assistance from the group leader during instruction.
  - Seek other information from other adults.
  - Use tools to document including assessment tools, anecdotal notes, photographs, rubrics, participation charts or developmental checklists.
2. **How the child thinks, questions, analyzes, synthesizes, produces, and creates:** This can be shown through observing the child in play and the child participating in stories or dramatic play, games, or invention activities. Some suggestions for documenting these are provided below:
  - Note how children respond to assistance from the group leader during instruction.
  - Seek other information from other adults.
  - Use tools to document (assessments, anecdotal notes, photographs, rubrics, participation charts or graphs).
3. **How the child interacts - intellectually, emotionally and socially - with others:**
  - This can be shown by observing children's play, storytelling, reenactment of stories, dramatic play, interactions with adults or peers, and how the child initiates play with peers in small or large group. Children learn to use strategies such as making comments that are appropriate to the ongoing interactions as learned from staff and adults who model appropriate responses. Creative learning activities such as block play and open-ended activities will give children opportunities to build positive relationships with others.
  - Documentation of collected information can be done by conducting observations of the child in group settings or with peers. Photographs and anecdotal notes are ways to create additional support documentation of a child's social and emotional development with others. Use of an assessment tool can be used to record the development of social/emotional skills to support the

development of goals/learning objectives for children.

**4. Goals/learning objectives for child outcomes are included in child portfolios**

The portfolios must be **written and updated** with at least one goal/learning objective per month **and the portfolio must include a piece of evidence or an observation at least once every three months (four times per year)**. It could be the same goal/ learning objective for multiple months. The Group Leader is responsible for ensuring that the goals/learning objectives for each child correspond to the documentation that is being included in the portfolio. The goals/learning objectives must be in each child's portfolio or cataloged in a three-ring binder or some other system folder which can be reviewed side-by-side with the portfolio. **Each entry must be dated, including months where goals have remained the same.** This should include the month and the year minimally.

**5. Artifacts/samples of the child's work** such as a piece of art or a photograph or video of a child working on a goal/learning objective. The artifact/sample should have a specific developmental outcome (reason) linked to it and noted in the portfolio.

**Portfolios for School-Age Children**

For school-age children, screeners are used in school, but not often used in before and after school programs. To supplement a screener, a survey or inventory can be used to initially document children's growth and development as they begin participation in the program. The survey/inventory asks families questions about their child. This allows school-age programs to identify meaningful, efficient, and engaging ways to share important information with families. An inventory tool is a way to bring children's experiences in school-age programs to life for families. It can help families recognize the important ways school-age programs support their children's development. The portfolios will vary from child to child because of individual differences among children.

At least one goal/learning objective per month must be documented in portfolios for each child in regular attendance. It could be the same goal/ learning objective for multiple months. The Lead Teacher is responsible for ensuring that the goals/learning objectives for each child correspond to the documentation that is being included in the portfolio. The goals/learning objectives must be in each child's portfolio **or** cataloged in a three-ring binder or some other system folder which can be reviewed side-by-side with the portfolio. **Each entry must be dated, including months where goals have remained the same.** This should include the month and the year minimally.

Items that may be included in a school-age portfolio:

- Developmental Checklists of tasks used to support, help, guide or encourage children in developmental tasks including physical development, new thinking skills, social skills, learning about the world beyond home and family, competence, new thoughts and feelings, and independence.
- Anecdotal records
- Running observations
- Work samples
- Photographs
- Video and audio recordings
- Children's journaling excerpts

YoungStar staff and the Wisconsin Afterschool Network have developed an enrollment inventory for school-age children that are available online free of charge here:

[http://dcf.wisconsin.gov/youngstar/pdf/enrollment\\_inventory.pdf](http://dcf.wisconsin.gov/youngstar/pdf/enrollment_inventory.pdf).

## VERIFICATION

To earn this point, portfolios must be robust in every group for every child who is in regular attendance but are not required for children who are not in regular attendance.<sup>10</sup> To use Consultant/Rater time wisely, verification of this indicator must be verified for 25% of the children in regular attendance from one-third of the groups (up to three groups). If there are three or fewer groups, Consultant/Rater must verify portfolios for all groups. If a child has been in attendance at least one month but less than 3 months, the portfolio for that child must be created and have at least one piece of evidence or observation in it.

To be robust, a portfolio for children who are school-age must have **at least three** pieces of evidence or observations to be considered complete which demonstrate **one or more** of the following:

- What the child has learned and how he or she has learned it
- Goals/learning objectives for child outcomes
- Artifacts/samples of the child's work or child-completed participation surveys

“Progress over time” can be verified through seeing copies of child portfolios. Ideally, programs will start a portfolio for a child at the time of first enrollment and the portfolio will move with the child. **Programs must be able to demonstrate at least one year of portfolio use.** The Consultant/Rater must use his/her judgment to determine if portfolios are used actively and in an ongoing manner. This means, at a minimum, the portfolios must be updated with a piece of evidence or observation **at least once every three months (four times per year)**. And goals must be updated at least monthly. If the program is only open for part of the year, pro-rate this based upon the number of months the program is open. For example, if the program is open three months of the year, they must update the portfolios at least once per year.

At least one goal/learning objective per month must be documented in a child's portfolio or cataloged in a three-ring binder or some other system folder which can be reviewed side-by-side with the portfolio. It could be the same goal/ learning objective for multiple months. The Group Leader is responsible for ensuring that the goals/learning objectives for each child correspond to the documentation that is being included in the portfolio. The goals/learning objectives must be in each child's portfolio. **Each entry must be dated, including months where goals have remained the same.** This should include the month and the year minimally.

If a program sends portfolios home with families every so often and does not keep copies of these as proof, the program can still earn the point for this indicator if this practice is noted in the parent handbook and supported in practice with new portfolios having been created. In this case, a Consultant/Rater will encourage a program to make photocopies over the last year of at least one child in each classroom to demonstrate this practice for YoungStar.

**Summer School-age only:** When a School-age program only operates during the summer months, a portfolio for any child enrolled for more than six days, must be created and must have at least one piece of evidence or observation in it. This means, at a minimum, the portfolios must be updated with a piece of evidence or observation **at least once every six weeks**. The item could include an interest survey, an artifact, anecdotal note or observation, or an activity summary survey.

**B.3.2 Group Leader Uses Intentional Planning to Improve Child Outcomes**  
**For 1 point**

Group leader uses intentional planning to improve child outcomes. This includes the use of an individual child assessment tool.

Intentional planning means acting purposefully (based on an individual child assessment), with a goal/learning objective in mind and a plan for accomplishing it. Programs can demonstrate this through assessing individual children and using what is learned from the assessment to establish lesson plans and program areas where they aim to improve child outcomes and refine how they plan and implement activities based upon child assessments.

Authentic child assessment can be defined as focused observations which use reliable and valid, evidence-based methods to incorporate strength-based functional assessment in natural environments using natural supports. It uses everyday relationships, observations of growth and development, consideration of individual learning styles and differences, and utilization of all environments in which the child lives and learns.

Assessment is on-going, continuous, and not done on a fixed timeline. Assessments will bring about benefits for children, programs and families. They should not add undue burden to families or programs.

**Periodic summarization (at least monthly) to monitor progress in the domains should be done to see what individual children have mastered** toward specific outcomes and expectations or what they may need to have continuing help with. Sample periodic summarization tools also called “assessment summaries” are documents that a Lead Group Leader would use to track a child’s or a small number of children’s progress at meeting certain goals/learning objectives. The goals/learning objectives should be created by reviewing a child’s assessment and determining where the child is currently and what the next goal/learning objective is. In some assessments, the summary is made in an area within the assessment tool.

The training needed for assessment varies by tool. Lead Group Leaders should be trained on the assessment tool that they use to inform their practice and individualize instruction for children in their care. Training could include any of the following: reading a book; watching a video; or attending training by a PDAS-approved trainer or by other staff at the program. If there is no physical proof of the training (i.e. a certificate of attendance or similar artifact), the Consultant/Rater, through interview, needs to ensure the person who took the training understands the training content and can explain how the training will influence their practice. **It is the program’s responsibility to demonstrate the connections between the child observations, lesson plans, goals/learning objectives, and the individualized child assessment tool that is used by the program. Lead Group Leader and Director could refer to the Teaching Cycle as explained in the Wisconsin Model Early Learning Standards materials/training.**

In YoungStar, programs can earn a point when every classroom has their curriculum/programming and assessments aligned with WMELS performance standards or developmental indicators for school-age children that are reflected in the learning experiences in the content areas of SACF. This alignment is meant to ensure child care programming is not narrowly focused on certain domains, or that lesser attention is paid to some domains. The SACF is not a checklist to evaluate a child’s development and learning. Rather they guide the choice of assessment instruments and serves as a way to organize the data collected from those instruments. The Assessment and Alignment Review Tool is designed to help your program determine how well an assessment aligns with the domains and performance standards identified in the School Age Curricular Framework.

An Assessment and the School Age Curricular Framework Alignment Review Tool is available at:  
[http://dcf.wisconsin.gov/youngstar/pdf/assessment\\_alignment\\_with\\_sacf.pdf](http://dcf.wisconsin.gov/youngstar/pdf/assessment_alignment_with_sacf.pdf)

An Assessment and the Wisconsin Model Early Learning Standards Alignment Review Tool is available at:  
[http://dcf.wisconsin.gov/youngstar/pdf/assessment\\_alignment\\_with\\_wmels.pdf](http://dcf.wisconsin.gov/youngstar/pdf/assessment_alignment_with_wmels.pdf)

Assessments are tied to children's daily activities, including child-guided experiences (e.g., in learning areas or work on projects) and peer-to-peer interactions. Staff may record on-the-spot assessments whenever possible (i.e. observe, ask, listen in, check), using the information to shape their teaching, moment by moment with individual children. Surveys/evaluations are also a way to check in with children. School-age children should have the opportunity to provide input into programming and how they learn. Older children could do this by completing a questionnaire; younger school-age children may need assistance with a survey/evaluation.

Assessment tools/surveys for school-age children can be customized or adapted to suit the assessment goals of a program and implemented internally without assistance. It is not expected that all school-age programming would address similar outcomes. It is also expected that there can be valid outcomes for programs to achieve that may not be included in assessment/survey tools. Different indicators may be used for different age groups to ensure the outcomes are developmentally appropriate.

A well-constructed program with clear goals and activities linked to those goals may achieve a wide range of youth outcomes. Youth programs operating during the non-school hours are important partners that work alongside families and schools to support learning and development. Some programs prioritize academics; others prioritize enrichment, recreation or leadership development; others combine together a combination of these. Most of these programs aim to develop cross-cutting skills that will help youth to be successful now and help ensure they are ready for college, work and life. Partnering with the classroom teacher from the child's school is an opportunity to receive external evaluations or insight into the child's work from school. External evaluations can be valuable when partnering to support children's development.

**Examples of assessment tools/surveys that may be used include:**

- [Afterschool Youth Outcomes Inventory, PASE](#)
- **Creating Portfolios With Kids in Out-of-School Programs—Developmental Checklists:**  
<http://www.newroads-consulting.com/store.html>
- Personal Learning Plans
- Family, teacher, child surveys, questionnaires, or evaluations
- National Institute on Out-of-School Time (NIOS): [Survey of Afterschool Youth Outcomes \(SAYO\)](#)
- [Collections of Youth Outcome Measure Tools](#)

Assessment tools used by the program must show that the following practices are included in the assessment process:

- Demonstration that the assessment tool is ongoing (indicating specific dates the assessment tool has been used for a child versus check marks only),
- Demonstration of use as a continuum<sup>11</sup> that incorporates a broader scope of development and learning for children,
- **Others not previously reviewed and approved by DCF and the Consultant.** The tool will need to be aligned, by the program, to the School Age Curricular Framework content areas/domains using the school-age Alignment Review Tool (for school age children).

Programs choosing to develop their own assessments can view the following YoungStar document: "Guidance for Choosing/Developing Assessments in School-Age Programs." It is located at:

<http://dcf.wisconsin.gov/youngstar/pdf/guidance-choosing-developing-assessments-sa-prog.pdf>.

---

<sup>11</sup> A continuum spans the whole of the early childhood years and describes the progression of development and learning that children can be expected to know and do as they develop. There usually is an overlap in the age ranges, reflecting that the sequence of developmental skills will be achieved within a broad range of time.

## VERIFICATION

Program must be able to demonstrate that they do all of the following:

1. Assess individual children (*using an assessment tool aligned to SACF*)

This can be shown by using ongoing assessment practices. Any and all the domains of children's learning and development can be assessed. A program will gather information to determine the current developmental level of the child by using observation, using anecdotal notes, or collecting children's work, and then using development milestones checklists or a reliable assessment tool to put together the information on a collection form (assessment summary) to document progress in relation to age-appropriate expectations. The goal is to gauge a child's abilities, attitudes and social skills, prior knowledge and understanding, and skills and habits in relation to what the program emphasizes. The Consultant/Rater will verify that assessment of individual children is taking place by:

- Conducting an interview of the Lead Group Leader to review the individual group procedures for conducting assessments.
- Modifications that are being made for individual needs of children
- Verifying the frequency of child assessment is **at least twice per year or the recommended frequency of the tool.**
- Summer School-age only: Verifying the frequency of child assessment is **at least every six weeks or the recommended frequency of the tool.**
- It is the program's responsibility to demonstrate the connections among the child observations, lesson plans (if used), goals/learning objectives, and the individualized child assessment tool that is used by the program. (B.3.1 – Updates to portfolios should be completed at least once every three months.)
- Verifying the program is using what is learned from the assessment process to inform the lesson plans (if used).

**NOTE:** Any and all the domains of the child's learning and development can be monitored for progress. Best practice shows that a program should assess the child on the schedule recommended by the assessment tool that is used. All children do not need to be assessed at the same time. For example, the Lead Group Leader may choose to assess a few children per week on a rolling basis, making sure each child is assessed at least once per month. The information gathered may be put into portfolios but this is not required for this point. Again, the goal is to gauge a child's abilities, attitudes and social skills, prior knowledge and understanding and skills and habits in relation to what the program emphasizes.

2. Use what is learned from the assessment process to establish lesson plans and program areas where they aim to improve child outcomes. This can be shown by using curriculum and environment to support the developmental level and goals/learning objectives for individual children, small groups of children and the larger group of children as a whole. This information can be indicated on the lesson plans and in the environment. Various learning areas can be identified on the lesson plan which will allow the Group Leader to provide structure for exploration with the materials and environment. Developmental goals/learning objectives that describe what the children will do through environment-based learning centers with curriculum that emerges from the children's interests are written in the planning framework or lesson plan. A lesson plan should include written small group, large group, and individual children's goals/learning objectives. By writing down goal/learning objectives on a lesson plan/activity plan or individual child plan, it keeps focus on the purposes for activities and the ways that learning can be supported for children's development. Consultants/Raters will need to see a direct connection between assessment summaries and the goals/learning objectives identified on lesson plans on a sampling of portfolios. **If a program does not have a lesson plan** they can still earn this component but must have a way of indicating that they are documenting goals/learning objectives for individual children.

3. Plans and implements learning experiences based upon child assessments.

This can be shown through implementation of the assessment process, lesson plan and interest areas/learning centers designed for the children. Learning opportunities and activities are guided by supportive interactions and relationships that are age appropriate, individually appropriate, and culturally appropriate. This will be reflected in the course of a series of lesson plans that are used to focus on goals/learning objectives for the children by using curriculum and the environment to design and create exploration, to support adult guidance, and allow information to be collected and documented for a collection/assessment summary for each child or groups of children. The Consultant/Rater will verify that Group Leaders can explain how they plan and implement learning experiences based upon child assessments by:

- Conducting an interview of the Group Leader about:
  - How they are supporting children being successful at the stage each child is at and not only the whole group of children
  - modifications that are being made for individual needs of children and use of group leader strategies to support children's learning
- Tracking through consecutive 4 weeks of lesson plans specific children's goals/learning objectives.

To earn the point for this Indicator, **all groups must use intentional planning**. To use the verification time wisely, a Consultant/Rater will request to see **the most recent consecutive four weeks** of lesson plans for **one-third of the groups (up to three groups)**. If there are fewer than three groups in care, this indicator should be verified for every group. Additionally, individual child assessments/developmental milestone checklists or portfolio entries must be verified for 25% of the children in regular attendance in those selected groups. For example, if there were three groups, the Consultant/Rater should see the lesson plans for each group and the child assessments/developmental milestone checklists or portfolio entries for 25% of the children in regular attendance in the selected groups.

**NOTE: Assessments that are designed by the program may be used if in the opinion of the Consultant/Rater, they are appropriate. If the Consultant/Rater has any doubts or wants verification, he or she may send the assessment to DCF for review.**

### **B.3.3 Program Implements Developmental Screening Practices**

#### **For 1 point**

Lead Group Leader demonstrates that she/he has received training on screening tools used in the program. Within 30 to 45 days of a child's enrollment, a completed **enrollment inventory** or developmental screener has been received from the family. The program provides the developmental screening opportunity annually or as recommended by the tool and assures appropriate referrals are made to appropriate resources. The developmental screener may be administered by a physician, a Head Start program, or another outside agency and if shared from the family to the program will be accepted for this indicator. If a program does not receive a completed screener from the family, the program must document which families have not returned it. Programs should consider adding a statement in their program policies about their developmental screening practices for children. A readiness Checklist for a Group Program can be found at: <http://dcf.wisconsin.gov/youngstar/pdf/readiness-checklist-groupcenter.pdf>.

There are no commercial screeners for school-age children to use in afterschool programs. National youth development organizations have developed inventory tools to use with the children to give the staff and program an opportunity to plan for the interests and development of school-age children. An inventory is similar to a screening for early childhood programs, only it is more self-reported. Screeners that are used in early childhood programs are filled out by staff and families to help families understand the child development and to inform program staff of the child's need for supportive services. During the school-age years, children are working on different tasks. They are at differing levels for each task: they may excel in one area and may be just beginning in another. Whatever task they are working on, school-age children thrive when staff tune into their needs and provide them with appropriate support, help and guidance. The YoungStar School-Age Enrollment Inventory has been adapted from the national youth organizations that support the use of such tools.

#### **Examples of screening tools that may be used include:**

- [YoungStar Optional School-Age Enrollment Inventory](#) (for school-age children, if enrolled)
- Parent Evaluation for Developmental Success (PEDS) (birth - 7 years, 11 months)
- Ages and Stages Questionnaire (2 months – 60 months)

Additional information on selection of a screening tool can be found here:

<http://www.collaboratingpartners.com/documents/TipSheet2selectingascreeningtool.pdf>,

and  
<http://www.collaboratingpartners.com/screening-early-identification-howtoworksheets.php>

**NOTE:** For YoungStar purposes, the ASQ-SE should be used in concert with the ASQ-3. ASQ-SE alone does not meet the requirement.

#### **Children four to five years (in a school-age program)**

Developmental screening is an intentional process that provides information about how a child is developing and the family is functioning. A screening will sometimes suggest that more in-depth information be gathered to determine whether additional professional support is warranted. Best practices include using multiple sources of

information and a reliable, valid, and standardized tool or procedure. Determining whether a child is on a typical developmental trajectory or whether a child needs additional services can be difficult.

When development does not proceed along a typical trajectory, identifying the need through developmental screening and intervening early increases the likelihood that development can proceed typically and that children and families experience favorable outcomes. Screening processes provide a way to gather high quality, valid, and reliable information about how a child is developing and provides a foundation for informed action to support healthy development and family functioning.

A waiver form can be kept in lieu of developmental screening and results should a parent decline developmental screening. The waiver should be kept in the child's portfolio. The sample waiver form is available at: <http://dcf.wisconsin.gov/youngstar/pdf/youngstar-screening-draft-waiver.pdf>.

Additional information on selection of a screening tool can be found here: <http://www.collaboratingpartners.com/documents/TipSheet2selectingascreeningtool.pdf> and <http://www.collaboratingpartners.com/screening-early-identification-howtoworksheets.php>

### **VERIFICATION**

To earn this point, screenings must be received **for every child who is in regular attendance**. To use Consultant/Rater time wisely, this indicator **must be verified for 25% of the children in regular attendance from one-third of the groups (up to three groups)**. The waiver and documented attempts are acceptable replacements. The training needed for each screening tool varies by screening tool but could include any of the following: reading a book; watching a video; or attending a training by a registered PDAS trainer or other trainer. If there is no physical proof of the training (i.e. a certificate of attendance or similar artifact), the Consultant/Rater, through interview, needs to ensure the person who took the training understands the training content and can explain how the training will influence their practice.

### **B.3.4 Individual Child Outcomes Tracked**

**NOTE:** this point cannot be earned if program does not earn the points for Indicators B.3.1 and B.3.2 AND a program cannot earn this point in the first year if they have not already started tracking child outcomes.

#### **For 1 point**

Lead Group Leader tracks individual child goals/learning objectives and outcomes to demonstrate that Lead Group Leader training and child interactions improve children's individual outcomes. **Programs must be able to demonstrate at least six weeks of tracking child outcomes to earn the points for this indicator. The program may show previous year's information combined with current year.** See indicator B.3.2 for examples of assessment tools that may be used. If an initial assessment has been done on the children in the group, and because of the timing of the rating, a follow up assessment has not been completed, the program may still earn the point by demonstrating past assessments.

Outcomes or standards include developmental domains, but also specify what information or facts children are expected to know. For outcomes to strengthen instruction and boost achievement they must be receptive to assessment. Outcome statements are written in ways that take into account the unique ways that children develop and learn. Programs must be able to document child outcome standards (the knowledge, skills, and dispositions children demonstrate).

Child outcomes describe the knowledge and skills children should acquire by the end of the year. Comprehensive child outcomes define the range of knowledge and skills that children should master. They can also extend beyond knowledge and skills, describing the kinds of habits, attitudes, and dispositions children are expected to develop as a result of classroom experiences.

Learning expectations, curriculum, and assessment should align. Once expectations for learning are agreed on, the curriculum should align with those expectations (curriculum should teach children the things they will be expected to have learned). Assessment tools should align with both outcomes and the curriculum, measuring what the outcomes specify and what the curriculum teaches.

Programs should use a cycle of:

- Assessment of children to learn where children are;
- Planning of goals/learning objectives for child outcomes;
- Implementation of those plans; and
- Review of child outcomes after implementation to learn which strategies worked to further the children's development.

An example is as follows:

School-Age children:

- Demonstrate age-appropriate social skills
- Demonstrate increased problem-solving skills
- Demonstrate increased knowledge about healthy lifestyles
- Acquire and gain new knowledge and skills.
- Increased positive relationships with family members

Additional examples of year-end outcomes for school age can be found in Appendix E. Examples of outcome tracking forms can be located at: <http://dcf.wisconsin.gov/youngstar/provider-resources.htm>. They are located in the Learning Environment and Curriculum section. These forms can be used to track outcomes of the class or individual children. At the top of the sample form is a program's identified outcome. The outcomes chosen are linked to the SACF/WMEELS. Child outcomes are defined as the benefits experienced as a result of supports provided for a child(ren). By using a systematic tracking system, the program can follow the movement of individual children or of all children in a classroom and be able to indicate whether the intended benefits or changes were experienced by the child(ren) and will help identify if progress has been made toward the specific outcome. It can also be used to inform the group leader about the progress the class is making as a whole and provide a picture of where additional supports are needed. In the same location, a blank template is available for programs to use to design a classroom tracking form for their own program.

### **VERIFICATION**

**To earn this point, programs must be able to demonstrate at least six months of tracking child outcomes for 25% of the children in regular attendance from one-third of the groups (up to three groups).**

To earn this point, Consultants and Raters should ensure the Site Supervisor and Lead Group Leaders shows an understanding of child outcomes and can explain how individual child outcomes are tracked over the duration of a child's enrollment. Individual Lead Group Leaders must be able to demonstrate they track child outcomes through portfolios and lesson plans. The Lead Group Leader must show that lesson plans are adapted to reflect goals/learning objectives from individual child assessments. For example, the School-Age Curricular Framework implementation form provides an area for individual goals/learning objectives that can be used for lesson planning.

If an initial assessment has been done on the children in the group, and because of the timing of the rating, a follow up assessment has not been completed, the program may still earn the point by demonstrating past assessments. If the program is in the process of performing assessments for the first time and has not completed the first round of assessments, the program **MAY NOT** earn the point for assessments.

**Summer School-age: Programs must be able to demonstrate at least six weeks of tracking child outcomes to earn the points for this indicator. The program may show previous year's information combined with current year.** To earn the point for this indicator, all groups must track individual outcomes but to use verification time wisely, a Consultant/Rater must request to see the **most recent consecutive four weeks** of lesson plans for at **least one-third of the groups**. For the groups selected, the Consultant/Rater must also cross-check **the most recent four weeks** of lesson plans with the individual child assessments, developmental milestone checklists or portfolio entries for the children that are listed on the lesson plans. If there are three or fewer groups, Consultant/Rater must verify lesson plans for all groups.

C.1 Signed YoungStar Contract

**POINTS AVAILABLE: 0**

**C.1 Signed YoungStar Contract**

**REQUIRED for All Programs**

**For 0 points**

Program must sign and hand in a YoungStar Contract to participate in YoungStar. They do not earn any points for doing this; it is just a prerequisite for participation. This contract is valid for two years.

##### **QUALITY INDICATOR**

C.2 Business Practices

**POINTS AVAILABLE: 3**

**C.2.1 Ongoing Yearly Budget/Budget Review/Record-Keeping/Taxes** **REQUIRED for 3, 4, 5 Stars**

**For 1 point**

The program does all of the following:

- Develops an annual line-item budget which includes funding for at least one item in the program's Quality Improvement Plan
- Reviews the budget annually and makes adjustments to future budgets if necessary
- Demonstrates record-keeping practices that track income and expenses including meals and snacks served
- Completes timely and accurate tax documents

### **VERIFICATION**

The Consultant/Rater needs to verify the following four items for this indicator:

1. **Line-item Budget:** The program has an annual line-item operating budget which includes all of the following:
  - Projected income and expenses for current year divided into line-items: this is to be a 12-month budget but does not necessarily need to follow the calendar year—they may use the state or federal fiscal years or some other time period. The Consultant/Rater needs to verify that the program has a budget for the current 12-month period using whatever fiscal year the program has chosen to use. For example, if the program is using a state fiscal year (July to June), and it is October 2015, the Consultant/Rater would need to see the budget that runs from July 2014 to June 2015. The requirement is to show this for a 12-month period. This could be shown in one sheet that covers a 12-month span or could be broken down monthly or quarterly, depending on the program's preference.
  - One line-item which includes funding for at least one item in the program's Quality Improvement Plan (QIP): this may be a line-item by itself or may be an item within a line-item. For example, a program may have School Age Curricular Framework training in their QIP and they may be shown within a line-item for "Training" or may be named "QIP line-item" explicitly.

**NOTE:** Large, multi-site organizations may have a large budget which includes one or more programs within it. YoungStar recognizes that each site may not have an individual budget. Consultants/Raters need to be able to see the larger budget that encompasses the multiple sites and verify each of the items listed above for the individual sites within the larger budget to earn the point for this indicator.

2. **Budget Review:** The program reviews the budget annually and makes adjustments to future annual budgets if necessary. Programs should not continually update or change dollar amounts on their current budgets, but rather review them periodically and use the information to inform and create future budgets. This should be shown through the following:
  - The program has a report of actual income and expenses divided into line-items for the previous fiscal year and can demonstrate to the Consultant/Rater at least one area where the actual income and expenses from the previous year informed the annual budget for the current year. This may be shown as a separate document, an interview or as part of the annual budget document in the form of additional columns or notes.
3. **Record-Keeping Practices:** The program demonstrates record-keeping practices that track income and expenses including tracking meals and snacks. All of the following must be verified for this indicator:
  - **Tracking income and expenses:** Verification will be completed by the Consultant/Rater reviewing documents that demonstrate that the program is keeping track of income received and expenses paid within categories for the line-item budget or profit/loss statement. The Consultant/Rater needs to see evidence of **one month's worth of records** (however, note that extrapolating information from **one month** to determine *actual income received* for the whole year is not an accepted business practice).
  - **Tracking Meals and Snacks:** Child and Adult Care Food Program (CACFP) claims (**last 2 months and an in-progress claim**) would satisfy this requirement. This supports good business practice as this information can be used to provide documentation for development of future budgets. Programs that provide meals and snacks for children and that are not on CACFP must provide records (Consultant/Rater will request **up to 3 months' worth**) documenting:
    - Menus
    - Meal/snack components (what was actually served if different from printed/posted menu)
    - Children served that meal/snack (programs not on CACFP will need to keep track of number of children served meal/snack to meet this requirement)
    - Date meal/snack was served

- Time meal/snack was served (a meal “window” posted on a schedule is fine [i.e., LUNCH 11-11:30AM], as long as this is reasonably accurate to what is observed by Consultant/Rater.)

**NOTE:** if children bring all meals and snacks from home, the number of children served does not need to be verified for this indicator.

4. **Accurate Taxes:** The program completes timely and accurate tax documents. For a school-age program, the Consultant/Rater needs to see signed or electronically filed copies of all of the following:
  - Copy of last 4-four quarterly 941's or 944's
  - Copy of last year's Federal Income Tax Return (Form 1065, Form 1120, Form 1120S or Form 990)
  - If they have employees: Copy of last year's State WT-7 OR W3 if they don't file WT-7 because the employees are exempt from paying taxes

### **Accurate Taxes**

There are many different tax reports that child care programs need to file with the Federal and State Government. There are two categories of tax reports that you will need to verify that the child care program has filed. The first is payroll taxes. The second is income taxes. Income tax returns have confidential and sensitive information. The requirement is only to verify that the required income tax reports have been filed. Child care programs should blackout any social security numbers and amounts on the income tax returns. The payroll tax returns do not have sensitive data so there is no need to black out amounts on those returns.

**941/944:** There are Federal and State payroll tax reports that need to be filed. The Federal payroll taxes are reported on either Federal Form 941 or 944. These reports are filed quarterly. This return reports the amount of taxes withheld from employee's pay checks for Federal Tax, Social Security Tax and Medicare Tax. This return also includes the amount that the child care program owes for Social Security Tax and Medicare Tax. Verify that either the 941 or 944 have been filed for the previous quarter. If a program has been open for less than a year, they would need to show the 941/944s for the quarters they have been open. If the program is only open for a portion of the year, they would need to show 941/944s for the quarters of the year they are open.

**Federal Income Tax Return:** Which Federal income tax return filed depends upon the type of organization. Verify that one of these Federal Income Tax reports was filed for the previous year by looking at the signature page of the return. Confirm that it was signed and dated.

- A Partnership will file a Federal Form 1065
- A Limited Liability Company (LLC) will file either a Federal Form 1065 or 1120
- A Subchapter S or C Corporation will file a Federal Form 1120
- A Non-Profit Corporation will file a Federal Form 990
- Dis-regarded Entity will file a Federal Form 1040 and Schedule C.

**WT-7/WT-3:** If the program has employees, they need to file a WT-7 or WT-3. Most programs will have WT-7s. The amount withheld from employee's pay checks for State Tax is reported on the Wisconsin form WT-7 annually. Verify that the WT-7 was filed for the previous year. If the program has employees who are tax-exempt, they will file a WT-3 instead of or in addition to a WT-7.

**Tax Extensions:** If a program has filed for a tax extension for any one of the required tax forms and, because of this, cannot show the appropriate form, a copy of the extension along with the previous year's filing documents would be accepted for this point.

**Electronic Filing:** If a program files taxes electronically, a document that confirms electronic filing is required.

### Budget Definitions

**Actual Report of Income and Expenses:** A report of actual income and expenses that shows the same line-items as the budget, but with the real (not estimated) amounts in the document. This is often called an “Income Statement” or a “Profit and Loss Statement.” Consultants/Raters will make sure the budget is **not** a report of actual income and expenses, but an estimate of the year to come. The actual report of income and expenses of the previous year should be used by the program to inform budget planning for the coming year.

**Budget:** An annual operating budget is a line-item projection or estimate of income and expenses that the program will have for a 12-month period, either the calendar year or the program’s fiscal year. If applicable, the budget should reflect the business income/expenses as line-items separately from the owner’s personal household income/expenses as line-items.

**Fixed vs. Variable:** Many budgets show the projected income and expenses as annual dollar amounts, separated into fixed and variable. Fixed income or expenses generally stay the same throughout the year. For example, the rent for the space used for the program is a fixed expense. Variable income or expenses change, and may increase or decrease depending on the number of children attending. Variable expenses can be budgeted by something other than a set yearly/monthly amount, such as a percentage of income or the cost per child. An example of a variable cost is food, which increases and decreases depending on enrollment. Tuition is an example of a variable income that increases or decreases as enrollment fluctuates.

**Line-Items:** Line-items are descriptions of income or expenses within a budget. For programs that are at the three-star level, line-items may be general and broad. At the four- and five-star level, Consultants should encourage programs to get more detailed with the line-items they use in their budgets. There is no specific number and/or type of line-item required for YoungStar. Line items used are decided by the program, based on their needs.

### What if a Program Doesn’t Have a Budget?

- **If a new program opens and wants to create a budget**, the Site Supervisor can create a budget which includes current month and every month for the rest of the calendar year (Example: if it is August 2015, the starting month of the budget would be August 2015 and the ending month would be Dec 2015). In order to receive credit for "assessing the program's financial status" during this first budget period, the Site Supervisor would need to provide actual income and expense amounts for the months completed of the budget time span, current within a one month lapse. A budget must be created annually after the initial budget period is completed.
- **If an existing program would like to create a budget for the first time**, the Site Supervisor can create a budget which includes estimates of income and expenses for 6 months prior to the current month and 6 months forward, for a total of 12 months. In order to receive credit for “assessing the program’s financial status” during this first budget period, the Site Supervisor would need to provide actual income and expense amounts for the first 6 months of the budgeted time span and use this to inform the second 6 months of their annual budget. A budget must be created annually after the initial budget period is completed.
- **If the program is currently using a budget**, the program must create a new annual budget each year. To satisfy the “yearly assessment of program financial status” the program must show that **ACTUAL** expenses/income for the past 12-month time frame informed the current annual budget.
- **If a program has not been in existence for 12 months**, the program would not be eligible for a formal rating with observation.

#### **C.2.1 Ongoing yearly budget, budget review, record-keeping and taxes**

Indicator Met: ☐ Yes ☐ Not Met

Point(s) Earned: \_\_\_\_/1

**All checkboxes below must be marked "Yes" to earn the point for this indicator.**

**Budget**

Does the program have a line-item budget for the current fiscal year?

☐ Yes ☐ No

Is there at least one line of the budget that reflects a goal from the program's Quality Improvement Plan?

☐ Yes ☐ No

Notes on budget:

**Budget Review**

Does the program have a report of actual income and expenses for the previous fiscal year that is used to inform the budget? ☐ Yes ☐ No

Can the program demonstrate at least one area where the actual income and/or expenses from the previous year informed the current annual budget? ☐ Yes ☐ No

Notes on budget:

**Record-keeping**

Does the program track income received and expenses paid within a line-item budget or profit/loss statement?

☐ Yes ☐ No

Documentation provided:

Does the program have a written record of the following?

☐ CACFP claims (**last 2 months submitted and in-progress claim would satisfy this**)

**OR**

☐ Programs not on CACFP must be able to provide records (**up to 3 months' worth**) documenting:

- menus
- meal/snack components (what was actually served if different from printed/posted menu)
- children served that meal/snack (programs not on CACFP will need to keep track of number of children served meal/snack to meet this requirement)
- date meal/snack was served
- time meal/snack was served (a meal "window" posted on a schedule is fine [i.e., LUNCH 11-11:30AM], as long as this is reasonably accurate to what is observed by Consultant/Rater)

Notes on record keeping:

**NOTE:** if children bring all meals and snacks from home, this part of the indicator does not need to be verified.

**Tax records**

## Business and Professional Practices: **OPTIONAL** Points

### QUALITY INDICATORS

#### C.2.2-3 Business Practices

#### POINTS AVAILABLE: 2

##### **C.2.2 Employment Policies and Procedures**

**REQUIRED for 4 and 5 Stars**

##### **For 1 point**

Written copy of employment policies and procedures including at least six of the following: job descriptions and hiring practices, personnel policies, salary/benefit schedules, evaluation procedures, staff disciplinary policies, grievance procedures, program policies and staff expectations. For the selected practices, under this indicator, the following will need to be in place:

- each must be available to staff, and
- staff must know about the existence of the document and if the staff member requests a copy, they will be given a copy **within one business day** of the request.

A dated document(s) with each employee's signature would be the verification of receipt and review of the selected policies. An example of a policy review and receipt signature sheet is available on the YoungStar website in the Business and Professional Practices section of the Resources for Providers at:

<http://dcf.wisconsin.gov/youngstar/provider-resources.htm>.

1. Job descriptions: A written job description is available for all teaching staff (Group Leaders, Assistant Group Leaders, etc.) and Site Supervisor and/or administrator: A written procedure is available that says the program gives staff a job description upon hire. The job description is based on the responsibilities of the job. There is a different description for each job title, not each staff member.
2. Hiring practices: A written process for hiring is available. The program will detail the process it uses to recruit, interview and select employees. It will include each person's responsibilities in the process. The process will include a list of questions that the interviewer may not ask or topics that cannot be broached because they may be considered discriminatory against the job applicant. While it is good

practice to have a broad Equal Opportunity Employer (EOE) statement in policy, having this statement alone would not meet the intent of this indicator. Information about this topic is available at: [http://dwd.wisconsin.gov/er/discrimination\\_civil\\_rights/fair\\_employment\\_law.htm](http://dwd.wisconsin.gov/er/discrimination_civil_rights/fair_employment_law.htm)

3. Personnel policies: Written personnel policies are available to all program staff: Personnel policies are made available to all program staff upon hire and are available to all staff while at the program. Personnel policies should include staff expectations.
4. Salary/benefit schedules: All program staff has access to a written salary scale which outlines staff roles and takes into account **at least three** factors when differentiating between salary schedules encompassing educational qualifications/specialized training and years of experience related to the age group served.

Salary and benefit schedules are made available to all program staff upon hire and are available to all staff while at the program. There is an annual process for evaluating, calculating and reviewing salary and benefits. This can be one document together or two separate documents.

In child care, these factors are often:

- Education level for example Registry level/degree
- Years of experience
- Specialized training for example Noncredit class in age served, a credential earned
- Job title

A salary scale must also show how an employee earns an increase in wages/benefits. There are a number of ways that organizations choose for these increases. Some include:

- A standard annual cost of living adjustment (COLA)
- Earned through years of service
- Earned by acquiring additional training, credits, or degrees
- Earned by a high performance on an annual review

It is up to the individual programs to decide starting wages for each level of the scale as well as the methods by which increases are earned. Increases can be done in set amounts or a percentage of current wages.

5. Evaluation procedures: Annual performance appraisal process includes input from all Group Leaders and Site Supervisor. This means that staff have input on the evaluation process, not that each staff member evaluates every other staff member.

Criteria for appraising staff performance are different for each role and are tied to the specific responsibilities outlined in each job description. A written performance appraisal process is available to all Group Leaders and the Site Supervisor while at the program. If there is a Board of Directors or owner for the program, or if the Site Supervisor reports to some other higher entity (not a Board of Directors or owner), the evaluation of the Site Supervisor by the Board, owner, or higher entity must be shown. If the Site Supervisor is also the owner of the program and there is no Board of Directors or other supervisor for the Site Supervisor, the Site Supervisor must have a self-evaluation with professional development goal setting to meet the requirements of this point. Group Leaders and Site Supervisors who have been employed for **90 days or more** must have a written appraisal on file. When there is a large number of staff, not all staff need to be verified to earn this point. A sample size of 25% is sufficient to determine if the appraisals are being completed. The appraisal includes a self-evaluation

as well as an evaluation done by the person they report to. Consultant/Rater needs to ensure that the appraisals are kept confidential. This can be verified verbally.

If a center is in their first year of operation, it is understood they will not have annual performance appraisals done for each employee. In this case, the programs must have written performance appraisal for Group Leaders and Site Supervisors who have been employed **for longer than 90 days**; these evaluations must include a self-evaluation done by the teaching staff as well as an evaluation done by the person they report to. After the first year of operations, annual performance appraisals must be done.

6. Staff disciplinary policies: A written policy of progressive discipline is available to all program staff: The disciplinary policy details the behaviors that are subject to disciplinary action, the consequences and timeframe for notification of violation. When a violation occurs, the employee will be informed of the violation and the consequences at the earliest opportunity. Notifications can be done verbally and/or in writing. The policy must specifically address that all disciplinary procedures are done in private and between the employee and the person they report to. A broad policy that overarches the center regarding privacy in personnel matters would be acceptable as long as it has a phrase inserted which included something like "this includes disciplinary action with staff" as a way of acknowledging the importance of this. When violations are repeated the consequences become more severe.
7. Grievance procedures: A written grievance policy is available to all program staff: The grievance policy explains who the staff person needs to notify, how it needs to be reported and how the grievance will be evaluated. For example, if an employee disputes a decision made they have an opportunity to file a grievance.
8. Program policies: Written program policies are available to all program staff and families.

Comments/areas for future work on overall employment policies and procedures:

### **C.2.3 Use of Full-Staff Strategic Planning for Improved Workplace Standards**

**REQUIRED for 5 Stars**

#### **For 1 point**

Program offers evidence of using strategic planning with their whole staff for administration of business including hiring, staffing and business planning **at least once every two years**. This strategic planning must include plans to improve the workplace environment for staff members. Demonstration of the strategic planning must be site/location specific.

A high quality adult working environment is crucial to sustaining quality improvements over time. The strategic planning for workplace standards are viewed as a practice that promotes goal-setting, and as such can be used as a framework for establishing an action plan. Other tools, however, could also be used to achieve desired results (examples of tools include: *Model Work Standards* (no longer in print, but programs that have a copy may continue to use), *Question-Based Planning*, *A Great Place to Work*, *Program Administration Scale* and *Blueprint for Action*).<sup>12</sup>

Programs may choose to use an outside facilitator to help with this process and ensure shared decision-making among all staff members. However, if the Site Supervisor or a Lead Group Leader facilitates, there must be a commitment to a process of shared decision-making among all involved. Training in this area is available and a template for a meeting process is available.

#### **Programs that are in the first year of implementing strategic planning for workplace standards**

To demonstrate that a program is using the Model Work Standards, they must do all of the following:

- Director/administrator has read the *Model Work Standards*, *Question-Based Planning*, *A Great Place to Work*, *PAS*, *Blueprint for Action* or another accepted tool.
- The program has conducted an **initial** strategic planning process to improve quality in the program and develop a strategic plan. The strategic plan must address improvements in the adult work environment and should last 1 – 2 hours at a minimum. 75% of staff are in attendance.
- All staff were involved in identifying needs for improving working conditions and the work environment. The needs identified by staff are included in the strategic planning process.
- All staff were involved in prioritizing the needs for improving working conditions and the work environment.
- All staff were involved in setting at least one goal for improvements in working conditions and the work environment
- All staff were involved in the creation of action plans for improvements in working conditions and the work environment and are involved in the improvement process. There is a template available for creating this plan. The plan **must** include:
  - Clearly stated goal(s),
  - Names of persons who will be engaged in helping to achieve the goal (to include members of the staff),

<sup>12</sup> Model Work Standards ordering information: [http://www.ccw.org/index.php?option=com\\_content&task=blogcategory&id=81&Itemid=69](http://www.ccw.org/index.php?option=com_content&task=blogcategory&id=81&Itemid=69)

- Specific steps are needed to achieve the goal,
- The timeline for achieving the goal, and
- A plan to evaluate.

Plans may address improvements in a wide variety of areas, including: needs of staff in terms of the physical environment; interaction and collaboration among staff; relationships and communication needs; opportunities for professional growth, leadership and shared decision-making; challenges posed by scheduling and daily routines; improved working conditions, etc.

**NOTE:** All staff members do not need to be involved in the actual writing of the plan but must be able to review and change it if desired.

**NOTE:** If the program is in the first year of using strategic planning for work standards, it is not expected that programs will be in the implementation phase of their action plan in order to earn a point. To earn this point in a program's first year of implementing this practice, a meeting must have occurred and at least one goal identified with an action plan. After the first year, programs must demonstrate evidence of all items mentioned and show evidence that the program has made progress on at least one goal from the action plan of the previous year.

#### **Programs that are in subsequent years of implementing strategic planning for workplace standards**

To demonstrate that a program is using the strategic planning, they must do all of the following:

- Director/administrator has read the *Model Work Standards*, *Question-Based Planning*, *A Great Place to Work*, *PAS*, *Blueprint for Action* or another accepted tool.
- The program conducts a strategic planning process to improve quality in the program and develop a strategic plan. The strategic plan addresses improvements in the adult work environment and should last 1 – 2 hours at a minimum. 75% of lead staff are in attendance.
- All staff are involved in identifying needs for improving working conditions and the work environment. The needs identified by staff are included in the strategic planning process.
- All staff are involved in prioritizing the needs for improving working conditions and the work environment.
- All staff are involved in setting goals for improvements in working conditions and the work environment
- All staff are involved in the creation of action plans for improvements in working conditions and the work environment and are involved in the improvement process. There is a template available for creating this plan. The plan must include:
  - Clearly stated goal(s),
  - Names of persons who will be engaged in helping to achieve the goal (to include members of the staff),
  - Specific steps are needed to achieve the goal,
  - The timeline for achieving the goal, and
  - A plan to evaluate.
- The staff are involved in evaluating the progress made towards goals from the previous strategic planning process to improve working conditions and the work environment. Evidence of progress on at least one goal from the previous year's action plan must be shown.

Plans may address improvements in a wide variety of areas, including: needs of staff in terms of the physical environment; interaction and collaboration among staff; relationships and communication needs; opportunities for professional growth, leadership and shared decision-making; challenges posed by scheduling and daily routines; improved working conditions, etc.

**NOTE:** All staff members do not need to be involved in the actual writing of the plan but must be able to review and change it if desired.

Comments/areas for future work on strategic planning for workplace standards :

**Total points earned for Indicator C.2.1-3 \_\_\_\_/3**

**Business and Professional Practices: OPTIONAL Points****QUALITY INDICATORS**

C.3.1-5 Professional Development

**POINTS AVAILABLE: 1**

**C.3.1-5: Professional development**

**1 point is awarded if TWO or more of the following practices are evident**

**C.3.1 Annual staff evaluation includes professional development goal-setting:** A staff evaluation that includes professional development goal-setting has been completed in the past year and is on file for every staff person who has been employed for a full year or more.

If a program is in their first year of operation, it is understood they will not have annual evaluations done for each employee. In this case, the programs must have written evaluations for all employees who have been employed for

longer than 90 days; these evaluations must include professional development goal setting. After the first year of operation, annual evaluations must be done.

C.3.2 Access to professional development funding (specifically to meet goals of all individual staff PD plans): The Income Statement or Profit/Loss Statement has an expense account line-item for professional development or a similarly named account. The line-item shows that there have been expenses paid in the past 12 months. This could include, for example, participation in T.E.A.C.H. or access to other funds such as grants or private donations to support completion of education or training. Paid invoice(s) or other supporting documents are available with the amount spent on professional development to meet the goals of individual staff PD plans.

**NOTE:** This practice cannot be earned if center does not earn the practice indicated in C.2.2, item number 5, Evaluation Procedures.

C.3.3 Access to professional development materials on-site: The program has at least 10 books, CD's, electronic/online resources and/or other PD materials on-site that are available to staff on a variety of topics. Materials must be in the building or on the same property to be counted for this indicator. For example, if a program is located within a college campus and materials are available for free at a library on campus, this would meet the intent of this indicator.

C.3.4 Site Supervisor has active membership in a professional association focused on school-age care: The Site Supervisor and/or administrator plays an active role in a professional school-age association. The purpose of this indicator is for directors or administrators to show their commitment to the field of early childhood/school-age beyond center-based responsibilities. This may include service or leadership in an school-age professional organization similar to what is listed in the evaluation criteria. The ideal is to strengthen and to promote cooperation among professionals and agencies and interdisciplinary collaboration among professions concerned with addressing issues of well-being of young children, accessibility to high-quality programs, their families, and educators. Proof of membership can be membership cards, letters and/or invoices with dates of membership. Active membership means that they are current members who attend two meetings per year: either regular meetings of the association or of committees/ groups/teams per year (in person or by phone or web conference). Meeting schedules, agendas, notes/minutes of the meetings will provide proof of active participation. Both must be proven for this point. Conference attendance can count for one of the two meetings required. School-age and ECE associations may include:

- Wisconsin Afterschool Association (WAA) or the National Afterschool Association (NAA)
- Black Child Development Institute (BCDI)
- National Association for the Education of Young Children (NAEYC)
- Wisconsin Early Childhood Association (WECA)
- Local Area Early Childhood for the Education of Young Children (AEYC)
- National Association for Child Care Professionals (NACCP)

If the Site Supervisor belongs to more than one organization and attend a total of two meetings across multiple organizations (for example: 1 NAEYC meetings and 1 BCDI meetings) per year, this would meet the requirement for this indicator.

Other organizations may be approved upon DCF review. If programs would like to submit their organization for consideration, they should contact their Technical Consultant or complete the **Application for an Organization to be recognized as a Professional Association by YoungStar** which is available online at:

[http://dcf.wisconsin.gov/youngstar/pdf/application\\_organization\\_recognized.pdf](http://dcf.wisconsin.gov/youngstar/pdf/application_organization_recognized.pdf)

C.3.5 75% or higher retention rate of well-educated (AA or higher) Lead Group Leaders and program administration over most recent three-year period: Staff retention is calculated by dividing the number of currently employed Lead Group Leaders and Site Supervisor with AA degrees or higher who have been employed for three consecutive years or longer by the total number of currently employed Lead Group Leaders and Site Supervisor with AA degrees or higher. For example, if a program has three Lead Group leaders with AA degrees and a Site Supervisor with a Bachelor's degree. The total number of people in our pool (the denominator) is four (three Lead Group leaders + one Site Supervisor). Seventy-five percent of four is three. So, three of the four would have to have been there for three consecutive years or more to earn credit for this part of the indicator.

## QUALITY INDICATOR

### C.4.1-4 Staff Benefits

#### **POINTS AVAILABLE: 1**

##### **C.4.1-4: Staff benefits**

##### **1 point is awarded if TWO or more of the following practices are evident**

**C.4.1 Access to health insurance with 25% contribution:** The budget, Profit/Loss Statement or Income Statement has a line-item for group health insurance showing that the program pays at least 25% of the group health insurance premiums for full-time Group Leaders and Site Supervisor. A written policy needs to be conveniently available to all Group Leaders and Site Supervisor showing that the employer covers at least 25% of the monthly premiums for all full-time Group Leaders and Site Supervisor. If the program can show through policies that the benefit is offered but no one took it, they can meet the intent of this indicator.

##### **NOTES:**

- Supplemental insurance such as Aflac is NOT an acceptable health or life insurance benefit for the YoungStar criteria.
- The 25% requirement can be met in two ways: either the employer pays 25% of the premium for the employee in a group health insurance policy or the employer reimburses the employee for 25% of the cost of coverage for the employee under a health insurance policy that the employee has purchased.

**C.4.2 Access to pension/retirement with contribution:** The budget, Profit/Loss Statement or Income Statement has a line-item for pension/retirement expense for full-time staff. An invoice or statement supports that the company contributes toward the full-time Group Leaders and Site Supervisor pension/retirement account. A written policy needs to be conveniently available to all Group Leaders and Site Supervisor showing that the employer contributes to pension or retirement for all full-time Group Leaders and Site Supervisor. If the policy is online and a computer is available for easy access during the working day by staff, it would be considered

conveniently available. If the program can show through policies that the benefit is offered but no one took it, they can meet the intent of this indicator.

C.4.3 Paid time off of 18 or more days per year for full-time Group Leaders and Site Supervisor, prorated for part-time Group Leader staff: Written Paid Time Off (PTO) policy is readily available to Group Leaders and Site Supervisor while at the program which details the amount of PTO they earn. If PTO is earned at a per minute basis, then the rate is multiplied by 2,040 hours and then divided by 8 hours to calculate the annual number of days available. If the program hires part-time Group Leaders, they will earn PTO pro-rated based on the number of hours they work per week. **The 18 days must be available to use during the first year of employment.** Holidays like Christmas, Thanksgiving or Memorial Day count toward the 18 total days if staff are paid for these days off. Common PTO that does not count includes items like Jury Duty, Bereavement Leave and Military Duty for example.

**NOTE:** this indicator is pro-rated for programs operating less than a full year. So, if the program is open for three months (one-fourth) of the year, the program would have to demonstrate that they give full-time staff 4.5 days off per year.

C.4.4 All-staff meetings and planning time: The program provides a monthly staff meeting. To demonstrate this, the program must show a schedule of the monthly staff meetings, agendas, and minutes from previous meetings and attendance sheets for the previous 12 months. Staff schedules and/or time sheets showing that a total of **two hours** of planning time per week is available for Site Supervisors. Planning time is defined as the time that the site supervisor is given by administration to plan to meet the learning needs of the children. Planning time can only occur when the Site Supervisor is not counted in ratio; not during nap time if the Site Supervisor is counted in ratio.

**NOTE:** if the Site Supervisor has teaching responsibilities (serving a dual-role), the 2 hours mentioned here does not need to be in addition to the 15 hours of administrative time they are already required to have.

## QUALITY INDICATOR

### C.5.1-5 Family Engagement

**POINTS AVAILABLE: 1 or 2**

**REQUIRED for 3, 4, and 5 Stars**

**Programs are required to earn at least one point for 3 Star and two points to earn a 4 or 5 Star rating**

Because families are a child's first and most important teachers, it is essential for child care programs to have a vested interest in connecting with the families of the children that attend their program on a number of different levels. Understanding how to effectively engage families is an essential piece to building meaningful relationships. The family engagement criteria consist of five categories with at least three activities in each category. The five categories are:

1. Transition
2. Family involvement (engagement)
3. Family communication strategies
4. Family support strategies
5. Family/community connection strategies.

Within each of these five categories there are two tiers; Tier A and Tier B.

### **For 1 point**

To earn one point, programs must provide documentation of meeting the requirements of five activities from either tier in at least two separate categories.

For example, a program could earn one point for completing any of the following:

- two activities in the Family Involvement category and three activities in the Transition category, **or**
- the program could earn the point by completing three activities in Tier A in the Transitions category and two activities in Tier B in the Family Communication Strategies category.

### **For 2 points**

To earn two points, programs must provide documentation of meeting the requirements of ten activities in at least three separate categories. At least five of the ten activities need to be at the Tier B level.

For example, a program would earn two points if they completed all of the following:

- Three activities in the Family Involvement category in Tier A
- Two activities in the Transitions category in Tier A, and
- Five activities in the Family Support Strategies category in Tier B.

Points Available	Activities	Categories	Tier Level
1	5	2	Tier A or B
2	10	3	At least 5 activities <b>must</b> be from Tier B

**NOTE:** Verification periods are stated as 12 months. If a program operates for less than 12 months, the requirements are pro-rated.

### **Transition**

Transition is an ongoing process to ensure that children and families have appropriate information and support whenever there is a change in their child's placement. Transition activities may occur when children enter a child care program, change placements/classrooms within a child care program, or go to another program or on to kindergarten. To ensure a smooth transition of information between current and future placements, family involvement will be encouraged throughout the process, as the families are the primary advocates for their children.<sup>13</sup>

### **Family Involvement and Engagement**

Family Involvement is the participation of families in the systems and activities of the program in ways that support them as the primary educators, nurturers and advocates for individual children and for all children enrolled in the program. Family involvement refers to opportunities for family participation in a variety of program activities that support child and adult development, including policy and program decision making.

Family Engagement is ongoing, goal-directed relationships between staff and families that are mutual, culturally responsive, and that support what is best for children and families both individually and collectively. Staff and families share responsibility for the learning and development of children, the progress toward outcomes for children and families, and for parent involvement in the program.

### **Family Communication Strategies**

Family communication strategies are the foundation to begin building meaningful relationships with the families that attend child care programs. One of the easiest ways to avoid miscommunication, support families, and eliminate negative biases is to know how to effectively communicate with families.

<b>C.5.3 Family Communication Strategies: Tier A</b>

a.3 <input type="checkbox"/>	The program offers two family conferences per year for all children in regular attendance that have been enrolled for at least 12 months. Additional parent conferences are available by request or as needed. Sign-up sheet or notes on calendar/ planner is not enough to show that the meeting actually occurred; only that it was planned.  If a family refuses to meet, a signed refusal form is acceptable.
a.4 <input type="checkbox"/>	When an assessment tool for each child is completed, the program communicates the information with the family.	Evidence could be the assessment, meeting notes, plan of action, or next steps.	The program will provide the Rater with the completed assessment, and documentation of the meeting with the families for 25% of the children in regular attendance from at least <b>one-third of the groups (up to three groups)</b> . If a family refuses to meet, a signed refusal form is acceptable.  Documentation provided: _____
a.5 <input type="checkbox"/>	The program intentionally interacts daily with each child's family about individual child's day-to-day activities. The program has documentation of at least three types of communication with families on their individual child's activities, development and progress.	Evidence could be day to day communication forms, emailing photos and videos, text messages, sharing a daily activity log, and other non-traditional ways.	The program will provide the Rater with documentation of at least three types of communication in the last 12 months. The communication must be specific to the child (C.5.6).  1. _____ 2. _____ 3. _____

a.6 <input type="checkbox"/>	The program has documentation of frequent, on-going communication between staff and families. For this indicator, the program should ensure general information about the program is communicated to families. This could be changes at the center, changes in staffing, changes in procedures, new things happening, or family events upcoming -- the large picture of the culture at the center. Three types of communication from the last 12 months must be documented.	Evidence could be notes, emails, listserve, and social media specific for that program, newsletters, phone call logs, text messages and logs of face-to-face conversations.	The program will provide the Rater with documentation of at least three types of communication methods in the last 12 months (C.5.4).  1. _____ 2. _____ 3. _____

Families are given the opportunity to participate in advisory committee, board membership or other committees.	The program collects input from families through surveys, suggestion box or director-led parent meetings.	The program will provide the Rater with the policy for verification.  <b>NOTE:</b> If the program uses family surveys and has a process for using the results of the survey to inform their practice, and notify families about the changes made as a result of the surveys, the program can earn the credit for this indicator. Family surveys alone (without follow up) do not meet this requirement. If changes to programming or policies were made as a result of a survey and that change can be documented and verified, that would meet the intent of this indicator (C.5.2). b.3 <input type="checkbox"/>	The program has a dedicated space that supports breastfeeding mothers.	Examples: the program can provide a breastfeeding mother with <b>at least:</b> a private room, an electrical outlet, and chair, a small table, a waste basket, a sink nearby with running water, and a refrigerator or storage space for a small cooler nearby. A restroom does not count.	The Rater must be able to visibly observe <b>at least:</b> A private room, an electrical outlet, and chair, a small table, a waste basket, a sink nearby with running water, and a refrigerator or storage space for a small cooler nearby in order within the program for this option. Space provided: _____
b.4 <input type="checkbox"/>	The program works with families to implement at least two strategies to create consistency between home practices and the child care program's culturally/linguistically appropriate practices.	A form created by the program for this specific use, an added question on the intake form or a survey about what happens in the home. The information gathered is used in the child care settings in lesson plans, child's file, place on the form for actions steps, or through group leader/director/site supervisor interview.	The program provides the Rater with documentation of how the program gathered the information from the families about home practices <b>AND</b> then how the program used that information to create consistency for the children.  The Rater's judgment should be used, and they have the ability to be flexible.  1. _____  2. _____

#### C.5.1-5 Family Engagement

Indicator Met: ☐ Yes ☐ Not Met

Point(s) Earned: \_\_\_\_/2

Indicators in C.5 must be verified to earn one point or two points.

**To earn one point, programs must provide documentation of meeting the requirements of five activities from either tier in at least two separate categories.**

**To earn two points, programs must provide documentation of meeting the requirements of ten activities in at least three separate categories. At least five of the ten activities need to be at the Tier B level. Record the identification number of the activities verified in each section.**

## D. Health and Well-being

### Health and Well-being: **REQUIRED** Points

#### QUALITY INDICATOR

##### D.1.1 Health and Well-being

#### POINTS AVAILABLE: 1

##### **D.1.1 Program supports healthy nutrition and/or physical activity policies and practices**

##### **REQUIRED for 3, 4 and 5 star programs**

The intent of this indicator is for programs to improve nutrition and/or physical activity policies and practices through the use of a self-assessment and continuous quality improvement cycle.

To earn this point, programs must demonstrate all of the following:

1. Program uses one of the following self-assessment tools for quality improvement in the area of nutrition and/or physical activity:
  - [Nutrition and Physical Activity Self-Assessment for Child Care](#) (NAP SACC)
    - Go NAP SACC Self-Assessments – Centers<sup>15</sup>
      - Go NAP SACC Child Nutrition Self-Assessment
      - Go NAP SACC Breastfeeding & Infant Feeding Self-Assessment
      - Go NAP SACC Infant & Child Physical Activity Self-Assessment **and** Outdoor Play & Learning Self-Assessment
    - Go NAP SACC Self-Assessments – Family Child Care Programs<sup>16</sup>
      - Go NAP SACC FCCH Breastfeeding & Infant Feeding Self-Assessment
      - Go NAP SACC FCCH Child Nutrition Self-Assessment
      - Go NAP SACC FCCH Infant & Child Physical Activity Self-Assessment **and** Outdoor Play & Learning Self-Assessment
  - [Out of School Nutrition and Physical Activity Initiative](#) (OSNAP) - School Age Programs<sup>17</sup>

Go NAP SACC: Nutrition and Physical Activity Self-Assessment for Child Care, Family Child Care Edition. Center for Health Promotion and Disease Prevention and Department of Nutrition, University of North Carolina at Chapel Hill.

<sup>17</sup> This work was supported by Prevention Research Center cooperative agreement number 1U48DP001946 from the Centers for Disease Control and Prevention, including the Nutrition and Obesity Policy Research and Evaluation Network, as well as support from the Donald and Sue Pritzker Nutrition and Fitness Initiative and the Robert Wood Johnson Foundation (#66284).

The program must use a self-assessment tool that matches the ages of children in care. If there are children of all ages in care, the program should choose the tool that matches the ages of the majority of children in care. The program cannot use the YoungStar Evaluation Criteria or the rating results from the previous year as their self-assessment. The program may choose to use more than one self-assessment if they want to work on multiple areas of nutrition and/or physical activity quality improvement that a single self-assessment tool does not cover. The program must identify the date(s) the assessment process was completed in the last 12 months and who was involved in the process. The self-assessment process must include review and contributions from the Director and at least 75% of Lead Teachers.

2. Program has developed a Quality Improvement Plan (QIP) based upon the results of the chosen nutrition and/or physical activity self-assessment. The QIP must have been developed within the past 12 months and coincide with the completion of the self-assessment mentioned above. The QIP must include all of the following:
  - **At least three goals** for nutrition and/or physical activity
  - Action steps to be taken to meet the identified goals
  - Timeline for completion of the goals
  - Persons responsible for accomplishing the goals
3. Program has policies and procedures on-site to address children’s allergies and dietary restrictions. This requirement applies even if there are no children in care with allergies or dietary restrictions.
4. If the program allows meals, snacks or beverages to be brought from home, the program has a policy which states the program will supplement the meals, snacks and beverages if they do not meet the guidelines established by the Child and Adult Care Food Program (CACFP).

Programs are encouraged to utilize *Healthy Bites*, *Active Early*, *Got Dirt* and *Ten Steps to Breastfeeding Friendly Child Care Centers* to inform their practices in this area of quality improvement. Free copies of these texts are available at local YoungStar offices or on the YoungStar website in the Provider Resources section.

### **VERIFICATION**

The Consultant/Rater will verify that an approved self-assessment has been completed within the past 12 months. The Consultant/Rater will verify that the self-assessment has been reviewed and contributed to by the Director and at least 75% of Lead Teachers. This can be demonstrated through a coversheet, signed by the Director and 75% of Lead Teachers saying they had a chance to review and contribute to the document. The Consultant/Rater will verify that a complete nutrition and/or physical activity-focused QIP was completed. The Consultant/Rater will verify that the QIP was developed within the past 12 months to coincide with the self-assessment mentioned above.

The Consultant/Rater will verify that the program has policies and procedures on-site that address children’s allergies and dietary restrictions. The Consultant/Rater will verify this by specific document and page numbers of the written policy and procedures.

The Consultant/Rater will verify that the program has a policy which states the program will supplement meals, snacks and beverages if they do not meet the CACFP Guidelines. The Consultant/Rater will verify this through review of the policy.

## Health and Well-being: **OPTIONAL** Points

### QUALITY INDICATOR

D.1.2-4 Health and Well-being

**POINTS AVAILABLE: 4**

#### **D.1.2 Program supports physical skill development and healthy physical activity.**

##### **For 1 point**

The intent of this indicator is to improve physical activity practices through the environment used by the children to demonstrate that individual children are supported by best practice in physical activity and physical skill development. Pro-ration of the time requirements will be allowed for programs that operate less than 8 hours per day. See APPENDIX G for pro-ration times. Programs are encouraged to utilize *Active Early* to inform their practices in this area of quality improvement.

To earn this point, programs must demonstrate all of the following (based on the age groups served):

- Classrooms with the majority of children 36 - 60 months: Program provides children 36 – 60 months a total of 90 minutes minimum of physical activity and active exploration daily. Half of this time is teacher-led and half is child-initiated. Children are provided with less than 30 minutes of screen time per

week while at the program. Unrestricted free time<sup>18</sup> for children to explore their physical movement must be available indoors and outside, weather permitting.

- Classrooms with the majority of children 5 years and older: Program provides children 6 years and older with a total of 90 minutes minimum of physical activity and active exploration daily. Half of this time is teacher-led and half is child-initiated. School-age children are provided with less than 60 minutes of screen time per day while at the program. Unrestricted free time for children to explore their physical movement must be available indoors and outdoors, weather permitting.

### **VERIFICATION**

To earn the point for this indicator, all classrooms must follow the guidelines outlined above, but to use verification time wisely, a Consultant/Rater should verify this practice in one classroom for each age groups served: preschool and/or school age. Consultant/Rater must verify learning experiences through observations, lesson plans for the past 4 weeks, daily schedules or by interview. The Consultant/Rater must also verify the screen time policy.

- Children are provided with less than 30 minutes of screen time per week. This can be demonstrated through any of the following:
  - Classroom schedule
  - Lesson plans for the past 4 weeks demonstrating this
  - Program policy prohibiting more than 30 minutes of screen time per week for 31 months to 5 year olds
- Children are provided unrestricted free time to explore their physical movement both indoors and outdoors daily (weather permitting).

If inclement weather prohibits outside time, equivalent time indoors for physical activity will be available. Definition of inclement weather or weather permitting follows licensing standards from Wisconsin Administration Code.

Physical activity is provided for school-age which includes **all** of the following:

- School-age children are provided with 90 minutes of physical activity and active exploration daily. Half of this time is teacher-led and half child initiated.
- School-age children are provided with less than 60 minutes of screen time per day. This can be demonstrated through any of the following:
  - Classroom schedule
  - Lesson plans for the past 4 weeks demonstrating this
  - Program policy prohibiting more than 60 minutes of screen time per day for school-agers
- School-age children are provided unrestricted free time to explore their physical movement both indoors and outdoors daily (weather permitting).

### **D.1.3 Social Emotional /Inclusion Training**

#### **For 1 point**

50% of the staff have one of the Registry-verified trainings/equivalencies listed below. 50% is determined by taking every group that is in the Registry Program Profile and adding the Director's role to that number then dividing by two. One individual from a group would have to have the training/equivalency for that group to be counted toward the 50%.<sup>19</sup> For example, if a program has three groups and one site director, the pool is four. 50% of that is two. So, to earn one point, the program could have either one individual from a group and the Director OR they could have two individuals from two separate groups with the training/equivalency.

- 3 credits of inclusion and/or social-emotional training;
- 15 or more hours of training in Positive Behavior Intervention and Supports (PBIS);
- 15 or more hours of Guiding Children's Behavior in School-Age Care;
- 12 or more hours of training in Tribes® TLC; or
- 15 or more hours of YoungStar-approved non-credit training on inclusive practices, serving children with disabilities, and children with special health needs.

#### **For 2 points**

<sup>19</sup> Individuals from a group means an individual who is listed in The Registry Program Profile as any of the following: Lead Group Leader, Other Group Leader, Teacher, Assistant Teacher or Assistant School-Age Teacher. Please see **Appendix D** for information on Maintaining Registry Program Profiles.

The Director and an individual from every group must have one of the Registry-verified trainings/equivalencies listed below. 100% is determined by taking every group that is in The Registry Program Profile and adding the Director's role to that number. For example, if a program has three groups and one director, the pool is four. So, to earn two points, the program must have one individual from every group and the Director with the training/equivalency.

- 3 credits of inclusion training;
- 15 or more hours of training in Positive Behavior Intervention and Supports (PBIS);
- 15 or more hours of Guiding Children's Behavior in School-Age Care;
- 12 or more hours of training in Tribes® TLC; or
- 15 or more hours of YoungStar-approved non-credit training on inclusive practices, serving children with disabilities, and children with special health needs.

**NOTE:**

Non-credit training must meet one or more of the Wisconsin State Personnel Development Grant priorities (see Appendix B for definition). Consultants/Raters do not need to verify that the training meets these guidelines; The Registry does this.

**NOTE:** Online training offered with these course titles (Strengthening Families or Darkness to Light) are not acceptable for YoungStar.

**For ratings occurring on or after January 1, 2016,** YoungStar will no longer accept Department-approved Child Abuse and Neglect Prevention (CANP) training to meet the requirements of indicator D.1.4. Programs that earned a point for D.1.4 due to having 100% of Lead Group Leaders/Site Supervisor with CANP training will no longer earn that point when they are rated in the 2016 rating year unless the program has staff with qualifications to meet the other training options in indicator D.1.4. ## **Appendix A**

This document outlines the criteria for Self-Assessment and Quality Improvement Plans when the program has their own format or template for Self-Assessment or Quality Improvement Plan. Programs can use a variety of different tools that lead to a written quality improvement plan. The program must demonstrate effort to assess key elements of program quality that are linked to higher quality care and have developed a plan to improve in areas identified. The quality improvement plan is developed in accordance with authentic quality improvement tools. For YoungStar purposes, the following must be identified.

### **What is a Self-Assessment?**

Self-assessment tools help programs become better aware of important indicators of quality demonstrated within their own program. It is not a test that a program can pass or fail. Instead, it is a tool that supports an intentional review of program policies and delivery of services. The focus is on improvement. For YoungStar, the program is responsible for completing a Self-Assessment on:

- space and furnishings,
- personal care routines,
- literacy and language components,
- activities that engage children,
- promoting acceptance of diversity,
- provisions for children with disabilities,
- interactions among children and children and staff,
- program structure, and
- business and professional practices.

Items in a Self-Assessment tool should represent high quality standards that are above and beyond what are included in the licensing standards.

### **What is a Quality Improvement Plan (QIP)?**

The QIP provides the framework for a program's quality improvement work; it outlines the tasks the program needs to complete in order to meet the YoungStar level they are working to achieve.

### **Develop a Quality Improvement Plan**

Developing a Quality Improvement Plan is an important step in the YoungStar process for programs to begin their quality improvement journey. The Quality Improvement Plan will serve as a guide for how your program will spend funds, prioritize staff time, determine curriculum and instructional practices, and choose staff development. The areas of quality improvement for consideration might include:

- Credit-based Education Qualifications
- Professional Development (credit or noncredit-based)
- Environments – indoor and outdoor
- Curriculum
- Health and Well-being
- Business and Professional Practices
- Family Engagement
- Inclusive Practices
- Wisconsin Pyramid Model for Social and Emotional Development for Young Children
- Strengthening Families approach to Child Abuse and Neglect Prevention

The Site Supervisor and his or her staff team will identify and prioritize areas of need based upon the results of the program's Self-Assessment. The program will then identify steps to be taken, resources needed, timelines for

completion, and evidence of change. If a Technical Consultant is available, the program is encouraged to work with the Technical Consultant to develop a Quality Improvement Plan. A QIP for YoungStar will address the following:

- Aims or desired outcomes
- Barriers or challenges
- Tasks that will need to be completed
- Responsible party/parties
- Resources that are in hand or resources that are needed
- Measurement – How will the team know if the aim is achieved?
- Timelines or benchmarks for completion
- Test of the plan
  - Is the plan worth doing?
  - Are there concrete and specific measures?
  - Will the plan improve outcomes for children, families, staff or the program?
  - Are the outcomes inclusive of all, culturally competent and developmentally appropriate?

### **Verify and Maintain Continuous Program Quality**

Each program will need to annually review their Quality Improvement Plan based upon the annual Self-Assessment to determine progress and to adjust goals. Significant changes would include changing location or site of the program, new administration, or new Group Leaders. Programs are encouraged to continually examine the data from the Quality Improvement Plan as well as progress of the children to address continuous quality improvement. A sample Quality Improvement Plan is available from the YoungStar Regional Office and on the YoungStar website at: [http://www.dcf.wisconsin.gov/youngstar/pdf/ys\\_sample\\_qip.pdf](http://www.dcf.wisconsin.gov/youngstar/pdf/ys_sample_qip.pdf).

### **Other Definitions**

**Authentic Assessment:** The authentic assessment can be defined as focused observations which use reliable and valid evidence-based methods to incorporate strength-based functional assessment in natural environments using natural supports. They use everyday relationships, observations of growth and development; consideration of individual learning styles and differences; and utilization of all environments in which the child lives and learns. Assessment is on-going, continuous, and not done on a fixed timeline. Assessments will bring about benefits for children, programs and families. They will not add undue burden to families, programs or local and state administrators.

**Family Services Credential:** The Family Service Credential is a comprehensive, competency and credit-based training experience, designed to support direct service staff in their work with children and families. The content is structured into four modules and designed to support staff in the refinement of skills and strategies to incorporate the core values of being family centered, relationship focused, strengths based, ecological and reflective. The training content corresponds to the Head Start Performance Standards and the Focus Group Recommendations of September 1999 for Federal Competency Goals and Indicators for Head Start Staff working with families. For more information, contact Ruth Chvojicek, CESA 5, 1-800-862-3725 ext. 245 or [chvojicekr@cesa5.org](mailto:chvojicekr@cesa5.org).

### **Wisconsin State Personnel Development Grant priorities:**

- Legal Rules and Regulations in Wisconsin (Example: Individualized Family Service Plan (IFSP)/Individual Education Program (IEP), Least Restrictive Environment, Disability Descriptions and Eligibility Criteria).
- Collaboration related to Children with Disabilities and their Families (Example: Working across program areas, working within multidisciplinary teams, team decision-making).
- Evidence-based Practices (Example: Screening, assessment, inclusion strategies, caring for children with special health care needs).

### **NOTES**

#### **Wisconsin Mandated Reporter Online Training (for licensing requirements only)**

At this time, the Wisconsin Mandated Reporter Online Training is available for programs to take online at <http://wcwpds.wisc.edu/related-training/mandated-reporter/>. It will be counted as a registered training if entered by the program into the Registry. For information on how to do this, contact The Registry: <http://www.the-registry.org>

#### **SCAN-MRT**

SCAN-MRT trainings held prior to January 1, 2014 will continue to meet the requirement for Indicator D.1.4.

### **Registry Program Profiles**

The Registry Program Profile (also called an Organizational Profile) is a place for programs to store information about education and training. The information entered into these Organizational Profiles is automatically used to determine a program's star rating in YoungStar and reimbursement amounts in Wisconsin Shares. By signing a YoungStar Contract, programs agree to keep their Program Profiles accurate and up-to-date at all times. Programs may be subject to Wisconsin Shares program violations if the Program Profile is not kept up-to-date at all times. Check out the document at the link below for tips on keeping Program Profiles updated:

Information about maintaining your Registry Program Profile is available here:

[http://dcf.wisconsin.gov/youngstar/pdf/keep\\_program\\_profile\\_updated.pdf](http://dcf.wisconsin.gov/youngstar/pdf/keep_program_profile_updated.pdf)

## **Appendix E**

The Teaching Cycle is cyclical and includes the following:

**Assessment:** ongoing gathering of information to determine what the child can do and what the child is ready to learn. This includes data collection through ongoing observations, anecdotal notes, developmental screening information, work samples, children's journaling excerpts, etc. It also includes use of an individual child assessment tool. Programs are able to assess individual children and by developing appropriate activities in lesson plans and appropriate environments, they can refine the planning, goal setting and implementation process where they aim to improve child outcomes.

Evaluation Criteria Indicators that include assessment:

- B.3.1 Individual child portfolios
- B.3.2 Program Uses Intentional Planning to Improve Child Outcomes
- B.3.3 Program Implements Developmental Screening Practices
- B.3.4 Individual Child Outcomes Tracked

**Planning and Curriculum Goals/Learning objectives:** deciding what should be done to promote development and what we want children to learn. This includes planning and identifying the curriculum materials, the teaching strategies that will be used for individual children and groups of children, and identifying materials in the environment that are necessary to support the developmental level and goals/learning objectives of the children.

Evaluation Criteria Indicators that include planning and curriculum goals:

- B.2.2 Curriculum/Programming aligned with WMELS or SACF.

**Implementation:** providing meaningful, experiential activities that support individual and group goals/learning objectives guided by supportive interaction and relationship and is to be intentional. Group leaders will consider how learning opportunities and activities are guided by supportive interactions and relationships. Group leaders are to also consider how the learning opportunities and activities are age appropriate, individually appropriate, and culturally appropriate.

Evaluation Criteria Indicators that include implementation:

- B.3.2 Program Uses Intentional Planning to Improve Child Outcomes

It is all of the above that determines whether what actually happens in a classroom is or is not developmentally appropriate. In this decision-making process, keep in mind the desired outcomes for children's learning and development. NAEYC states that in the core of developmentally appropriate practice, it is important to understand that:

- knowledge must inform decision making,
- goals/learning objectives must be challenging and achievable and
- teaching must be intentional to be effective.

### **A Note on Child Goals/Learning Objectives**

By writing individual children's goals/learning objectives, a program can capture data for tracking and evaluating the achievement of goal/learning objectives by individual children. Outcomes are designed to best capture what a program aims to accomplish, in this case what a program aims to accomplish for children enrolled in the program.

Use of outcomes allows a program to select a specific outcome that they hope to achieve and to determine to what extent they have achieved it.

By using children's goals/learning objectives and tracking them, Group Leaders are able to be more intentional about the goals/learning objectives that are written for children to help all children in the program achieve outcomes that have been determined.

## Appendix F

### Scoring Child Outcomes in Summer-Only SA Groups

For scoring B.2.2: For group that have not yet been open for four weeks, the rater would need to see lesson plans for the weeks that they have been opened. Those lesson plans must meet the requirements for WMELS/SACF alignment, with developmentally appropriate expectations for the children in the classroom. Expectations for school-agers can be determined by the Framework used (WMELS/SACF) and/or by the curriculum/assessment used by the program. Individual child assessment is not required to earn this point.

For scoring B.3.1: Requirements for portfolios are somewhat flexible, based on age and attendance. Please pay close attention to the verification language of the evaluation criteria. If a child is enrolled more than six days, a portfolio must be created and must have at least one piece of evidence or observation in it. This means, at a minimum, the portfolios must be updated with a piece of evidence or observation **at least once every six weeks**. The item could include an interest survey, an artifact, anecdotal note or observation, or an activity summary survey.

For scoring B.3.2: Individual child assessment is required to earn this point. For school-age children, a survey is acceptable as a form of assessment. Please review page 24 of the evaluation criteria for information about school-age assessments. Since much of this indicator can be scored based on interview, the teacher must be prepared to explain the program's process for using the information gathered from the assessments/surveys of school-age children to plan/implement/refine experiences to improve the outcomes for the enrolled school-age children. For children who attend only during summer months, the program must be able to demonstrate (either by documentation from prior summer or written program policy) that school-age children are assessed once every six weeks.

For scoring B.3.3: Programs will follow the indicator as described.

For scoring B.3.4: Individual child assessment **and** use of portfolios are both required to earn this point. **Programs must be able to demonstrate at least six weeks of tracking child outcomes to earn the points for this indicator. The program may show previous year's information combined with current year.** The most recent lesson plans for the weeks that the classroom has been opened for the current year (up to four weeks) will be reviewed, and the group leader and/or Site Supervisor must be prepared to explain the process used to track child outcomes through portfolios, lesson plans, and individual assessments/surveys.
